

1. Record Nr.	UNINA9910832991803321
Autore	Kumar Tyagi Vinay
Titolo	Landfill Leachate Management
Pubbl/distr/stampa	London : , : IWA Publishing, , 2023 ©2023
ISBN	9781789063318 1789063310
Edizione	[1st ed.]
Descrizione fisica	1 online resource (494 pages)
Altri autori (Persone)	OjhaC. S. P
Disciplina	628.44564
Soggetti	Technology & Engineering / Mining Science / Applied Sciences Science / Environmental Science Science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Landfill leachate is a complex mix of organics, inorganics and heavy metals produced from the conventional and engineering landfilling practices. The adverse effects of landfill leachate on the human and environmental health have forced the relevant authorities to stipulate stringent disposal requirements, producing the requirement for ground-breaking technological solutions for effective management of landfill leachate. The researchers and field engineers are still looking for robust options for leachate management. This timely book on landfill leachate management is a valued addition into this domain. The key features of the book include: broad range of treatment techniques covered, conventional to advanced technological options discussed, along with the inclusion of successful case studies.
