Sommario/riassunto	"This book is a collection of recent lectures by Agnes Heller, delivered all over the world. These essays are edited and introduced by the author of the most significant intellectual biography of her work, John Grumley. In these lectures, Heller engages one of her greatest strengths: to discover philosophy within the very flux of contemporary events. These bring together such timely topics as refugees, human rights, truth in politics and the contemporary university as well as perennial issues like the possibility of artistic representation of the Holocaust, the question whether revolutions are always betrayed, and the possibility of universality in the contemporary multicultural world".
