Sommario/riassunto	Auditors and accountants face many challenges as the fallout from the financial crisis continues. Companies and individuals who have incurred losses are likely to turn the spotlight on their financial advisors who failed to keep them out of trouble. The enormous rise in fraud due to the recession will undoubtedly give rise to the age-old cry 'Where were the auditors?' Audit and Accountancy Pitfalls is a one-of-a-kind casebook of professional negligence claims against auditors and accountants. Written as a practical reference for accountancy practitioners and their advisors, the au
