

1. Record Nr.	UNINA9910841868203321
Autore	Bajaj Deepak
Titolo	Sustainable Built Environment [[electronic resource]] : Select Proceedings of ICSBE 2023 // edited by Deepak Bajaj, Thayaparan Gajendran, Sanjay Patil
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2024
ISBN	9789819988426
Edizione	[1st ed. 2024.]
Descrizione fisica	1 online resource (444 pages)
Collana	Lecture Notes in Civil Engineering, , 2366-2565 ; ; 451
Altri autori (Persone)	GajendranThayaparan PatilSanjay
Disciplina	690
Soggetti	Buildings - Design and construction Construction industry - Management Light construction Steel construction Lightweight construction Building Construction and Design Construction Management Light-weight Construction, Steel and Timber Construction
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Contents -- About the Editors -- Education for Sustainability, Training and Capacity Building -- Automated Framework for Evaluating Sustainability and Resilience in Higher Education Curriculum -- 1 Introduction -- 2 Literature Review and Research Gap -- 3 Study Data Set -- 4 Methodology -- 5 Automated Framework for Evaluating Sustainability and Resilience in Higher Education Curriculum -- 6 Result and Conclusion -- 7 Challenges and Future Scope of Work -- References -- Monitoring Occupant Preferences for Daylight Levels in Indian Homes: A Case of Ahmedabad -- 1 Introduction -- 1.1 Overview -- 1.2 Research Goals -- 2 Literature Review -- 2.1 Impact of Occupant Behavior on Residential Buildings -- 2.2 Daylight-Related Trade-Offs Made by Occupants -- 3 Overview of the Daylight-Related Trade-Offs Made by Occupants -- 3.1 Importance of Vertical Illuminance -- 3.2

Literature Gaps and Methods Used in Earlier Studies -- 4 Research Methodology -- 4.1 Selection Criteria of Residences -- 4.2 Selection of Logger -- 4.3 Protocol for Placement of the Sensors -- 4.4 The Procedure of the Field Study -- 4.5 Observations at Room Level and Building Level -- 4.6 Simulation Study -- 4.7 Methods for Data Analysis -- 5 Results -- 5.1 Average Daylight Levels Maintained in Living Rooms -- 6 Case Study-Well Daylight-maintained Homes: To Estimate the Gap Between the Daylight Access Availed by the Occupant and the Ideal Daylight Access of the Residence as per the Design -- 6.1 Understanding the Obstruction in the Daylight Access and Reasons to Curtail the Daylight Access by the Occupant -- 6.2 The Observed Gap Between Theoretical Design Potential and Observed Daylight Levels -- 7 Conclusion -- 8 Limitations and Future Scope -- References -- Sustainable Urban Habitat Through Integrated C&D -- D Waste Management in India: Challenges and Prospects. 1 Background and Motivation -- 2 Objective, Scope, and Methodology -- 3 Construction and Demolition Waste -- 4 C&D Waste: Quantitative Aspect -- 4.1 Global Scenario -- 4.2 Indian Scenario -- 5 C&D Waste: Quality and Composition -- 6 CDW Waste Utilization Policies and Regulations -- 7 Legal Aspects: Existing Policies and Lacunae -- 7.1 Recommendations -- 8 Prospects -- 9 Future Scope -- 10 Conclusion -- References -- Transformation Toward Net Zero Built Environment-Indian Scenario: Challenges and Opportunities -- 1 Introduction -- 2 Review of Literature -- 2.1 Carbon Emissions -- 2.2 Built Environment -- 2.3 Net Zero Targets -- 2.4 India's Commitment -- 3 Objective, Scope, and Methodology -- 4 Challenges -- 5 Roadmap -- 6 Enablers -- 6.1 Circularity and Its Importance -- 6.2 Decarbonization: Metrics and Analytics -- 6.3 Other Enablers -- 7 Conclusions -- References -- Sustainable Urban Planning, Housing, Real Estate and Construction Practices -- Affordable Housing: An Appraisal of User's Perception, Case Delhi NCR -- 1 Introduction -- 2 Literature Review -- 2.1 Slums: A Consequence of Unintentional Policies -- 2.2 Housing and the Sustainable Development Goals -- 2.3 Housing as an Integral Part of SDGs -- 2.4 Measuring Livability: Global Indices -- 3 Assessing Livability: A Case Example of "Savda Ghevra" -- 3.1 Savda Ghevra: Slum Rehabilitation Colony -- 4 Research Methodology -- 5 Assessing Livability: The Consumer Perspective -- 6 Conclusions and Recommendations -- References -- Impact of City Development on Artisans in the Context of Indian Cities -- 1 Introduction -- 2 Aim -- 3 Literature Review -- 3.1 Sustainable Cities -- 3.2 Community Development of the Artisans in India -- 3.3 Impact of Social Cohesion on the Development and Sustenance of Weavers -- 3.4 Social Cohesion and the Built Environment. 3.5 Impact of Urban Development on Artisans -- 4 Methodology -- 4.1 Development of Survey Instrument -- 4.2 Area of Survey -- 4.3 Data Collection and Analysis -- 5 Result -- 5.1 Result of Questionnaire Survey -- 5.2 Field Documentation on Weavers of Varanasi -- 6 Observations and Conclusion -- 7 Future Scope -- References -- Land Value Uplift Maps for Sustainable Urban Planning-A Digital Twin Approach -- 1 Introduction -- 2 Literature Review -- 3 Methodology -- 4 Data and Results -- 5 Discussions -- 5.1 Land Market, Value, and Planning Interventions -- 5.2 Digital Twin Approach and Urban Interventions -- 5.3 Policy Implications -- 6 Conclusions -- References -- Overview of Sustainable Development Initiatives in India -- 1 Background -- 2 Introduction -- 3 Critical Aspects of Sustainable Cities and Urbanization -- 4 Importance of Sustainable Urban Development in Indian Context -- 5 Sustainable Development Initiatives by the Government -- 6 Observations and Conclusions -- References

-- Thriving Vernacular Economies in the Sustainable Built Environment of Purani Delhi -- 1 Introduction -- 1.1 Sustainable Built Environment -- 1.2 The Role of Culture in Sustainable Built Environment -- 1.3 What Are Vernacular Economies -- 1.4 The Contemporary/New Age Vernacular -- 2 Research Question -- 3 Research Objectives -- 4 Research Methodology -- 5 Research -- 5.1 Research Gap -- 5.2 Description of the Case Study -- 6 Sustainable Concepts and Case Study Findings -- 6.1 Social Sustainability -- 6.2 Cultural Sustainability -- 6.3 Economic Sustainability -- 6.4 Environmental Sustainability -- 7 Critical Analysis -- 8 Conclusion and Takeaways -- References --

Understanding Notion of Public Spaces: Learnings from Historic Cities in Rajasthan for Planning Sustainable Urban Habitats -- 1 Introduction -- 1.1 Challenges of Urban Habitats -- 1.2 Statement of Problem. 1.3 Need of the Study -- 1.4 Objective of the Study -- 1.5 Relevance of the Study -- 1.6 Research Methodology -- 2 Review of Literature -- 2.1 The Idea of Public Space -- 2.2 Public Realm -- 2.3 Historic Cities and Inner Core Area -- 2.4 Gap in Research -- 3 Case of Four Historic Cities in Rajasthan -- 3.1 Urban Structure of Four Historic Cities -- 3.2 Public Space as Manifestation of Public Realm -- 3.3 Public Space Planning Principles in Four Historic Cities -- 4 Data Analysis and Inferences -- 4.1 Comparative Analysis of Four Historic Cities -- 4.2 Developing a Parametric Framework for Understanding Public Spaces -- 4.3 Parametric Evaluation of Public Spaces in Four Historic Cities -- 4.4 Crystalizing Notion of Public Space -- 5 Conclusion and Recommendations -- References --

Urban Public Services Delivery and Sustainable Development: A Survey of User Opinion in Four Major Metropolitan Cities in India -- 1 Introduction -- 2 Problem Statement and Research Gaps -- 3 Research Objectives -- 4 Theory Building -- 5 Literature Review -- 6 Research Methodology -- 7 Results -- 8 Comparison Between the Four Metropolitan Cities -- 9 Key Findings and Conclusion -- 9.1 Key Findings -- 10 Conclusions -- References --

Net Zero Built Environment Agenda, Progression, Opportunities and Challenges -- A Review of Sustainability Initiatives by Indian Real Estate Investment Trust (REIT) -- 1 Introduction -- 2 Literature Review -- 3 Research Objective -- 4 Research Methodology -- 5 REITs in India -- 5.1 Sustainability Framework (Table 2) -- 5.2 Renewable energy (Table 3) -- 5.3 Recycling (Table 4) -- 5.4 Biodiversity (Table 5) -- 5.5 Sourcing (Table 6) -- 5.6 Community Engagement (Table 7) -- 5.7 Corporate Governance (Table 8) -- 6 Conclusion -- 7 Recommendation -- References --

Evolution of Green Office Buildings in the Business Districts of Indian Cities. 1 Introduction -- 2 Background on Indian Cities, Business Districts, and Green Buildings -- 3 Literature Review -- 4 Data and Research Methods -- 5 City-Level Business District Classification in India -- 5.1 Mumbai Metropolitan Region (MMR) -- 5.2 NCR Region -- 5.3 Bangalore Region -- 6 Findings and Conclusion -- References --

Fueling India's Net-Zero Transition -- 1 Introduction -- 2 Literature Review -- 3 Method and Data Collection -- 4 Overview of Selected Mechanisms -- 4.1 Development Bank of Southern Africa (DBSA) Climate Finance Facility (CFF), South Africa -- 4.2 Association of Southeast Asian Nations (ASEAN) Catalytic Green Finance Facility (ACGF), ASEAN Countries -- 4.3 SDG Indonesia One (SIO) Green Finance Facility (GFF), Indonesia -- 4.4 National Investment and Infrastructure Fund (NIIF), India -- 5 Results and Discussions -- 5.1 Mechanism Specific Learnings -- 5.2 NIIF's Role in Fueling India's NZT -- 6 Policy Implications -- 7 Conclusion -- References --

Net-Zero Development in Educational Campuses-A Case Study of Nalanda University Campus at Rajgir -- 1 Introduction -- 2 Net-Zero Energy Buildings/Campuses

-- 3 Methodology -- 4 India's First Net-Zero Energy, Waste, and Water University -- 4.1 Biophilic Design -- 4.2 Sustainable Building Planning -- 4.3 Energy Efficiency and Renewable Energy Technology Solutions -- 4.4 Construction Waste Management -- 4.5 Water Efficiency Measures -- 4.6 Sustainable Campus -- 5 Result and Discussion -- 6 Conclusion -- References -- Climate Change Policy, Legal Framework and Financing -- Identification of Green Rating Attributes for Metro Station: An Indian Case Study -- 1 Introduction -- 2 Research Objectives -- 3 Literature Survey -- 4 Identification of Attributes -- 5 Research Methodology -- 5.1 Reliability of Collected Data -- 5.2 Questionnaire Validity and Significance Test. 5.3 Principal Component Analysis (PCA).

Sommario/riassunto

This book presents the select proceedings of International Conference on Sustainable Built Environment (ICSBE 2023). It discusses the issues of sustainability and resilience in all types of building projects, construction projects, operational building, and infrastructure projects within urban regions of the world. The key themes covered in this book are sustainable urban planning, sustainable construction, real estate, housing, net-zero built environment, climate change policy, legal framework, climate finance, technology, and innovation toward decarbonization of the built environment. This book is useful for researchers and professionals working in the fields of construction management, built environment, and allied fields.
