

1. Record Nr.	UNINA9910841872203321
Autore	Rocha Álvaro
Titolo	Information Technology and Systems : ICITS 2024, Volume 2
Pubbl/distr/stampa	Cham : , : Springer, , 2024 ©2024
ISBN	3-031-54256-8
Edizione	[1st ed.]
Descrizione fisica	1 online resource (485 pages)
Collana	Lecture Notes in Networks and Systems Series ; ; v.933
Altri autori (Persone)	FerrásCarlos Hochstetter DiezJorge Diéguez RebolledoMauricio
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Contents -- Multimedia Systems and Applications -- Efficiency Evaluation of Mobile Vision Transformers -- 1 Introduction -- 2 Related Work -- 3 Experiments -- 3.1 Database -- 3.2 Evaluation Metrics -- 3.3 Implementation Details -- 3.4 Image Classification Results -- 3.5 Face Alignment Results -- 3.6 Ablation Study -- 4 Conclusions -- References -- Online Shopping Experience: The Case of Zara -- 1 Introduction -- 2 Theoretical Framework -- 2.1 Perceived Quality of the Website -- 2.2 Social Influence and Recommendation -- 2.3 Performance Expectation -- 2.4 Trust -- 2.5 Consumer Satisfaction -- 2.6 Consumer Loyalty -- 2.7 Income -- 3 Method -- 4 Results and Discussion -- 5 Conclusions and Implications -- References -- Virtual Reality as a Tool for the Reconstruction and Dissemination of Cuenca's Cultural Heritage: Cases of the "Puente Roto" Bridge and the "Cornelio Merchán" Building -- 1 Introduction -- 2 Methodology -- 3 Results -- 4 Discussion -- 5 Conclusions -- References -- Lextutor Program as a Tool to Teach ESL Vocabulary -- 1 Introduction -- 2 Theoretical Framework -- 2.1 Vocabulary Learning -- 2.2 Lextutor.ca Program -- 3 Methodology -- 4 Survey Results -- 5 Conclusions -- References -- Study on Stereo AI Based Zed-2i Camera -- 1 Introduction -- 2 Installation Method of ZED-2i Camera -- 2.1 Hardware Interface of ZED-2i Camera with Computer -- 2.2 Software

and Tools Used -- 2.3 CUDA Toolkit -- 2.4 Other Extensions and Features -- 3 Experiment Execution and Results in Different Environments -- 3.1 Indoor Experiment -- 3.2 Outdoor Experiment -- 3.3 Pros and Cons of Results -- 3.4 Implication and Impacts of Results and Future Direction -- 4 Discussion and Conclusion -- References -- Systematic Review of Motion Sensors and Their Energy Efficiency -- 1 Introduction -- 2 Methodology -- 2.1 Research Planning. 2.2 Procedure for Information Search -- 2.3 Obtained Results. -- 3 Analysis -- 4 Conclusions -- References -- Organizational Models and Information Systems -- Technical and Business Risk Management in Software Startups -- 1 Introduction -- 2 Background -- 2.1 Types of Risks -- 2.2 Risk Management -- 2.3 Related Works -- 3 Methodological Design -- 3.1 Research Questions -- 3.2 Key Informants -- 3.3 Data Collection -- 3.4 Reading and Coding Responses -- 4 Results -- 4.1 Participating Software Startups -- 4.2 Risk Management Activities -- 4.3 Risk Identification Methods -- 4.4 Technical and Business Risks -- 4.5 Risk Management Strategies -- 5 Discussion -- 6 Conclusions and Further Work -- References -- The Impact of Insufficient Organisational Change Management on Enterprise Resource Planning Benefits: A South African Case Study -- 1 Introduction -- 2 Literature Review (Summary) -- 3 Research Methodology -- 4 Case Descriptions -- 5 Findings and Discussion -- 5.1 ERP Benefits -- 5.2 Organisational Change Management Activities -- 5.3 Impact of OCM on ERP Benefits -- 6 Conclusion -- References -- Infrastructure Overlays and Digital Chimeras: Keys for Reading Information Infrastructures -- 1 Introduction -- 2 Two cases in Swiss Agriculture -- 2.1 TIP: The Individual Animal Overlay -- 2.2 ADA: The Production Unit Overlay and Its Fully Distributed Chimera -- 3 Overlay-Chimera Examples -- 3.1 The Container Overlay in Transport Infrastructures -- 3.2 The Order Overlay in e-Commerce Infrastructures (Amazon) -- 3.3 The Interbank Transfer Overlay in Financial Infrastructures (SWIFT) -- 3.4 The Reliable Byte-Stream Connection Overlay in Internet Infrastructures (TCP/IP) -- 4 Discussion -- 5 Conclusion -- References -- Handover Analysis of Mobile Cellular Network in a Populated City -- 1 Handover Problems: Monitoring Ang Performance Optimization -- 2 Methodology. 2.1 Data Collection and Preprocessing -- 2.2 Statistical Analysis of RF Parameters in the HO Process -- 2.3 Machine Learning Methods -- 3 Results -- 3.1 Statistical Analysis of Handover Parameters in Cellular Networks Based on Field Measurements -- 3.2 Analysis of Handover in LTE Cellular Networks Using Machine Learning -- References -- The Development of an Architecture Using Traditional and Modern Recursive Neural Networks and Natural Language Processing to Increase the Accuracy of Response on Client Doubts Related to Public Services -- 1 Introduction -- 2 Related Work -- 3 Proposed Method -- 3.1 Recollection of Data -- 3.2 Natural Language Preprocessing -- 3.3 Vocabulary/Dictionary Generation -- 3.4 Training and Modeling -- 3.5 Evaluation of Experiments and Results -- 3.6 Interpretation of Results -- 4 Conclusions -- References -- A Systematic Mapping Study on the Use and Development of Research Software -- 1 Introduction -- 2 Related Works -- 3 Systematic Mapping Protocol -- 3.1 Research Goals and Questions -- 3.2 Search Strategy -- 3.3 Study Selection -- 3.4 Data Extraction -- 4 Results -- 4.1 RQ1. What Are Types of Contributions Have Been Emerged to Support the Research Software Use and Development? -- 4.2 RQ2. Which Type of Research Has Been Conducted Regarding Research Software? -- 4.3 RQ3. Which Types of Empirical Evaluation Have Been Performed in Research Regarding Research Software? -- 4.4 RQ4. Which Topics Have Been Addressed in

Research Regarding Research Software? -- 5 Discussion -- 6 Threats to Validity -- 7 Conclusions -- References -- Software Systems, Architectures, Applications and Tools -- Successful Case in the Development and Implementation of a Multi-company Inventory Management System Based on Communication Protocols Remote Procedure Calls (GRPC) and Server-Sent Events (SSE) -- 1 Introduction -- 2 Related Works.

3 Methodology -- 4 Results -- 4.1 Inventory Control -- 4.2 Distribution Route Generation -- 5 Discussion -- 6 Conclusion -- References -- A Dynamic Language System for Authoring Procedural Scenarios in Virtual Reality Environment Applications -- 1 Introduction -- 2 Literature Review -- 2.1 Virtual Reality -- 2.2 Programming Language Development -- 2.3 Language Compilers -- 3 Related Works -- 4 Conceptual Architecture -- 5 Implementation, Functioning and Limitations -- 5.1 Solution Steps -- 5.2 Functioning and Limitations -- 6 Validations and Results -- 6.1 Language Functionality -- 6.2 Authoring Process of VR -- 7 Final Considerations and Future Works -- References -- Using 5G Technologies and Predictive Models to Achieve a Flexible Network Capacity in Supercomputing Centers -- 1 Introduction -- 2 State of the Art: Networking in Supercomputing Centers -- 3 Flexible Network Capacity in Supercomputing Centers -- 3.1 Traffic Prediction Model and Congestion Detection -- 3.2 5G Communication Deployment -- 4 Experimental Validation: Simulation and Results -- 5 Conclusions and Future Works -- References -- Implementation of Euclidean Clustering for Object Detection Using 3D LiDAR in an Autonomous Vehicle Prototype with Embedded System and ROS -- 1 Introduction -- 1.1 Current Research -- 1.2 Contribution and Outline -- 2 Proposed Method -- 2.1 Infrastructure -- 2.2 Data Processing and Analysis -- 3 Point Cloud Preprocessing -- 3.1 PCD -- 3.2 VoxelGrid -- 3.3 Region of Interest (ROI) -- 4 Segmentation -- 4.1 Random Sample Consensus -- 5 Clustering and Tracking -- 5.1 Euclidean Clustering -- 5.2 Obstacle Tracking -- 6 Results -- 7 Conclusions -- References -- Using Blockchain Technology in Providing Mobile Financial Services to Alleviate Financial Exclusion in South Africa -- 1 Introduction and Background -- 2 Literature Review and Theoretical Framework. 2.1 Defining Financial Inclusion -- 2.2 Barriers to Financial Inclusion -- 2.3 Financial Inclusion in the South African Context -- 2.4 Challenges Addressed by Blockchain-Based Solutions -- 3 Research Methodology -- 4 Data Analysis and Findings -- 4.1 Usefulness and Effectiveness -- 4.2 Outcomes and Impact -- 4.3 Usability -- 5 Discussion -- 5.1 Usefulness and Effectiveness -- 5.2 Outcomes and Impact -- 5.3 Usability -- 6 Conclusion -- References -- Collaborative Platform for Intelligent Monitoring of Diabetic Foot Patients - Colab4IMDF -- 1 Introduction and Contextualisation -- 2 Background -- 3 Intelligent Systems Approach -- 3.1 Health Information Systems -- 3.2 Multi-Agent Systems -- 3.3 Microservices -- 4 Colab4IMDF Architecture -- 4.1 Main Contributions -- 5 Conclusions and Future Work -- References -- Immersive Shopping Experiences: The Role of Augmented Reality in E-Commerce -- 1 Introduction -- 2 Methodology and Article Selection -- 3 Discussion of Results -- 3.1 Analysis of Articles Resulting from the Selection -- 4 Conclusions -- 4.1 Article Analysis Discussion -- 4.2 Authors' Conclusions -- 4.3 Limitations and Future Research -- References -- A Predictive Model of Early Alerts to Improve the Availability of Internet and Data Service of a Telecommunications Company Through the XGBoost Algorithm -- 1 Introduction -- 2 Theoretical Framework -- 2.1 Data Mining Techniques -- 2.2 XGBoost (Extreme Gradient Boosting) -- 2.3

Methodology CRISP-DM -- 3 Experimental Setup -- 3.1 Phase 1.
Business Understanding -- 3.2 Phase 2. Data Understanding -- 3.3
Phase 3. Data Preparation -- 4 Modeling and Results -- 4.1 Phase 4.
Modeling -- 4.2 Phase 5. Evaluation -- 5 Discussion -- 6 Conclusions
-- References -- Software and Systems Modeling -- Towards Multi-
agent Specification of Health Care Systems Using -Calculus -- 1
Introduction -- 2 Environment.
3 Pi Calculus.
