Sommario/riassunto

Over the last two decades "poverty" has moved centre stage as an issue within the social sciences. This volume, edited by one of Europe's foremost sociologists, aims to assess the debates surrounding poverty and the responses to it, exploring the ways in which the various socio-political systems and welfarist regimes are being radically transformed. The essays examine how such change is effected by failing welfare programmes and enervating social structures such as family and community which once would have provided mechanisms of social stability. The first part of the book provides re
