

1. Record Nr.	UNINA9910842281603321
Titolo	Endometriosis-related Infertility : A Comprehensive Manual // edited by Simone Ferrero
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2024
ISBN	3-031-50662-6
Edizione	[1st ed. 2024.]
Descrizione fisica	1 online resource (296 pages)
Disciplina	618.178
Soggetti	Reproductive health Gynecology Surgery Reproductive Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Epidemiology Of Infertility In Women With Endometriosis -- Impact Of Endometriomas On The Ovarian Follicles -- Spontaneous Ovulation In Patients With Endometriomas -- Endometrial Receptivity In Women With Endometriosis -- Assessment Of Ovarian Reserve In Women With Endometriosis -- Assessment Of Tubal Patency In Women With Endometriosis -- Role Of Fallopian Tubes In Endometriosis-Related Infertility -- Role Of Ultrasonography In The Diagnosis Of Endometriosis In Infertile Women: Ovarian Endometrioma, Deep Endometriosis, And Superficial Endometriosis -- Surgical Treatment Of Endometriomas: Impact On Ovarian Reserve -- Surgical Treatment Of Deep Endometriosis: Impact On Spontaneous Conception -- Intrauterine Insemination In Women With Endometriosis -- Hormonal Therapies Before In Vitro Fertilization In Women With Endometriosis -- IVF Stimulation Protocols And Outcomes In Women With Endometriosis -- Impact Of Surgery For Deep Endometriosis On The Outcomes Of In Vitro Fertilization -- Impact Of Surgery For Ovarian Endometriomas On The Outcomes Of In Vitro Fertilization -- Does Ovarian Stimulation For In Vitro Fertilization Cause The Progression Of Endometriosis? -- Endometriosis-Related Complications In Women Undergoing In-Vitro Fertilization -- Fertility Preservation In Women With Endometriosis:

Oocyte Vitrification And Other Techniques.

Sommario/riassunto

This unique book examines in detail the pathogenesis and management of endometriosis-related infertility. Witten by international experts in the field, it focuses on the management of infertility in women with different forms of endometriosis (ovarian endometrioma, superficial endometriosis, deep endometriosis). It also discusses the impact of endometriosis on endometrial receptivity, oocytes and implantation, addressing both molecular and clinical aspects. This book is intended for physicians treating patients with endometriosis-related infertility, physicians and biologists working at infertility centers, trainees in gynecology, and subspecialty fellows in reproductive medicine.
