Sommario/riassunto

This volume deals with a new Dharma of peacebuilding and conflict transformations, drawing on the world's philosophical, religious, and spiritual traditions and many recent initiatives and experiments with peace. It deals with issues of sustainable peace, Dharma and Ubuntu of peace from African traditions, neurological insights of peacebuilding, traditions of conscientious objection, Satyagraha, possibilities of Gandhian Ahimsa, and moral and ethical limits of conflict and conflict resolution. It also presents the works of peace thinkers and activists such as Spinoza, Abhinavagupta, Tolstoy, Gandhi, Ulrich Beck, and others. It offers new initiatives and experiments in peace in different parts of the world—Palestine-Israel, Colombia, the Middle East, India, and South Africa. This pioneering and handy book is of interest to students, scholars, teachers, and activists working in peace and conflict studies, development studies, cultural studies, and religious studies as well as in different civil society organizations around the world.
