Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Handbook of Treatment Planning in Radiation Oncology; General Physics Principles; Tools for Simulation and Treatment; Central Nervous System Radiotherapy; Head and Neck Radiotherapy; Breast Radiotherapy; Thoracic Radiotherapy; Gastrointestinal (Non-esophageal) Radiotherapy; Genitourinary Radiotherapy; Gynecologic Radiotherapy; Lymphoma and Myeloma Radiotherapy; Soft Tissue Sarcoma Radiotherapy; Pediatric Radiotherapy; Palliative Radiotherapy
Sommario/riassunto	The Handbook of Treatment Planning in Radiation Oncology is a focused pocket-sized handbook designed for Radiation Oncology trainees and residents, to serve as an up-to-date, quick resource to lead them through all of the standard steps to plan and deliver radiotherapy for all major malignancies. The goal of the Handbook is to provide evidence-based information but also to be reflective of the knowledge gained through experience in practice. All chapters represent a joint collaboration between residents and staff radiation oncologists, in the Department of Radiation Oncology at the Cleveland C

Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"United States involvement in wars and humanitarian efforts in Afghanistan, Iraq, and Syria since 1990 have all involved coalitions. In 2010-11, U.S. Army colonel James L. Creighton commanded a multinational North Atlantic Treaty Organization (NATO) brigade consisting of soldiers, sailors, airmen, and civilians from nine different countries integrated into tactical formations down to the platoon level. This NATO brigade -Combined Team Uruzgan (CTU)- was responsible for defeating the Taliban insurgency in the provinces of Uruzgan and Daykundi, Afghanistan, and enabling the government of Afghanistan to build a stable society. In this book, leadership lessons resonate from the experiences and stories that the men and women of CTU shared during a year of counterinsurgency operations"--
