

1. Record Nr.	UNINA9910847089503321
Autore	Walsh-Childers Kim
Titolo	Palgrave Handbook of Science and Health Journalism
Pubbl/distr/stampa	Cham : , : Springer International Publishing AG, , 2024 ©2024
ISBN	3-031-49084-3
Edizione	[1st ed.]
Descrizione fisica	1 online resource (513 pages)
Altri autori (Persone)	McKinnonMerryn
Disciplina	070.4495
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Contents -- Notes on Contributors -- List of Figures -- List of Tables -- Chapter 1: Why Science and Health Journalism Matters -- A Brief History of Health/Science Journalism -- Health/Science Journalism Versus Health/Science Communication -- Content and Structure of This Book -- References -- Part I: Core Issues in Science and Health Journalism -- Chapter 2: Journalistic Conceptualisation of Science and Health: An Overview -- Introduction -- Distinctions Between Journalistic Culture and Scientific Culture -- History and Sociology of Science and Health Journalists -- What Is Health and Science to Journalists? -- Conclusion -- References -- Chapter 3: Who Speaks for/on Science and Health? Use of Sources by Science and Health Reporters -- Introduction -- Context -- Current Practices of Science and Health Journalists -- Looking Ahead -- Conclusion -- References -- Chapter 4: Who Are Science and Health Journalists? -- Introduction -- The Role of Journalists -- Role Perceptions of Journalists -- Role Perceptions of Science and Health Journalists -- The Changing Nature of Science and Health Reporting -- Who Else Is Reporting on Science and Health News? -- Ethical Considerations -- Future Areas for Exploration -- Conclusion -- References -- Chapter 5: Numeracy in Science and Health Journalism -- Introduction -- Numeracy and Its Impact on Health and Well-being -- Models of Science Communication -- Numeracy and Expert Sources -- Numeracy and Audiences -- Communicating Risk -- Numeracy and Journalists as Agents of Diffusion -- Beyond Numeracy: Areas of Future Research --

References -- Chapter 6: Uncertainty in the Process of Risk Communication for Public Health: An Integrative Theory-Based Approach -- Introduction -- Risk Perceptions and the Social Construction of Risk -- The Social Amplification of Risk Framework and Scientific Uncertainty. The Role of News Media in the Process of Amplifying Risks and Creating Uncertainties -- Looking Ahead: Current Risk-Related Uncertainties and Future Directions -- Conclusion -- References -- Chapter 7: Muzzling Misinformation: Drawing from Other Disciplines and Engaging Health and Science Journalists as Research Collaborators -- Introduction -- Contributors to Misinformation -- Understanding Misinformation -- Muzzling Misinformation -- Training to Target Misinformation -- Technology, Information Literacy and Policy to Target Misinformation -- Credible Sources, Information Literacy and Corrections to Target Misinformation -- Reaching Across Boundaries and Engaging Journalists: A "Dis-Misinformation" Research Agenda -- Engage Journalists as Research Collaborators, Not Just as Research Subjects -- Evaluate Journalists' Awareness and Application of Multidisciplinary Research Evidence and Tools -- Study the Work of Specialist Health and Science Journalists and Outlets -- Investigate the Impact of Training on Journalists, Their Work and Their Audiences -- References -- Chapter 8: Understanding Complexity in Science/Health: The Challenges for Two Cultures -- Introduction -- Complexity in Science and Health Journalism from the Knowledge Production Angle -- Complexity Caused by a Lack of Scientific and Health Knowledge -- Complexity Arising in the News Production Process -- Journalists' Practical Solutions to Knowledge Production Complexity -- Complexity Challenge to the Developing World -- The Complexity Challenge Arising from the Conflicts Between the Two Cultures -- Scientific and Journalistic Cultures -- Cultural Tension and Complexity in Science and Health Journalism -- Cultural Differences Across Nations and Implications for Journalism Complexity -- Improved Science-Media Relationship and Journalism Complexity. Complexity of Science and Health Journalism in the Digital Era -- Internet's Rising Impacts on Science and Health Journalism -- Prospects for Science and Health Journalism's Complexity in the Digital Era -- Conclusion -- References -- Part II: Reporting Formats and Audiences -- Chapter 9: Inclusion and Exclusion in Science and Health Journalism -- Introduction -- The Broader Context of Equity, Justice and Inclusion in the Media -- The Use of Health Disparity Framing in Media Coverage -- Media and Environmental Justice -- Accessing Science and Health News -- Barriers to Inclusive Journalism -- Characteristics of More Inclusive Journalism Forms -- Looking Ahead -- Conclusion -- References -- Chapter 10: The Politics and Economics of Health and Science Journalism on TV -- Introduction -- Context -- Journalists as Research Participants -- New Understanding of Health and Science Reporting -- Reporting Under Influence -- Pandemic of Panic -- Under Pressure -- What TV Reporters Say and What TV Reporters Do -- Focus on the Audience -- Scholars at a Glance -- Looking Ahead -- References -- Chapter 11: Telling Science/Health Stories in Audio -- Introduction -- Raising Health Awareness Through Radio -- Podcasting for Science and Health Communication and Journalism -- Podcast Audiences -- Podcasts as a Communication Tool: The Good, Bad and Unknown -- Podcasts and Participation -- Looking Ahead -- References -- Chapter 12: Social Media and Science/Health Reporting -- Introduction -- The End of Institutionalised Monopolies on Knowledge -- Platform Metrics and Affordances for Science/Health Reporting -- Slow Science/Health Research and Fast Science/Health

Reporting -- COVID-19 as a Game Changer for Science/Health  
Reporting -- The Increasingly Crowded Space of Science/Health  
Reporting -- Looking Ahead -- Conclusion -- References.

Chapter 13: Innovative Journalism Practices: Insights for Reporting  
Science and Health Issues -- Introduction -- Use of Technology  
to Improve Science and Health Journalism -- Access to Sources  
and Information for Science and Health Reporting -- Use of AI  
in Science and Health Journalism Workflow: Newsgathering and Editing  
-- Using Technologies to Connect the Public with Science and Health --  
Data Visualisation -- Data-Driven Journalism -- Algorithm Journalism  
and Automated Journalism -- Engaging, Interactive, and Contextualised  
Science and Health Reporting -- Innovative Journalism Practice Affects  
Science and Health News Distribution and Consumption -- Training  
for Science and Health Journalists -- How Can Technology Enhance  
Training for Science and Health Journalists? -- Computational Science  
and Health Journalism: Different Forms of Practice but Common  
Challenges -- Ethical Considerations: Should the News Media Become  
the Realm of Machines? -- Machine Bias and Science and Health  
Reporting -- Metrics-Driven Content Over Journalistic Accountability --  
Challenges Related to Automated Science and Health Reporting --  
Agenda for Future Research in Science and Health Journalism --  
References -- Part III: Key Science and Health Topics in the Media: Now  
and in the Future -- Chapter 14: Journalism for the Climate  
and Biodiversity Crises -- Introduction -- Context -- Media  
and Environment -- News Industry Trends, Journalistic Practices  
and Environmental Journalism -- Covering Climate Change --  
Manufactured Uncertainty and Mediatised Misinformation on Climate --  
Reporting the Biodiversity Crisis -- Looking Ahead -- Conclusion --  
References -- Chapter 15: Media Coverage of Space Science  
and Exploration -- Introduction -- Who Cares about Space News? --  
The Space Race Through the Cold War -- The Earliest Period of Space  
Science Coverage Scholarship.  
Pre-space Race -- The Launch of Sputnik through the Moon Landing --  
The Shuttle Program through the Challenger Disaster -- Post-Cold War  
Coverage -- An International Perspective -- What Gets Covered -- Bias  
in Space Coverage -- Working with Embargoes -- A Modern Mars  
in the News -- Barriers Journalists Face in Covering Space -- Looking  
Ahead -- Conclusion -- References -- Chapter 16: Covering Major  
Epidemics/Pandemics -- Introduction -- Context -- HIV/AIDS  
Pandemic (1981-Ongoing) -- SARS (2002-2004) -- H1N1 (2009-2010)  
-- MERS (2012) -- Ebola (2014-2016) -- Zika (2015-2016) -- COVID-  
19 (2019-Ongoing) -- Looking Ahead -- Social Media: Unavoidable  
Reality and a Potential Partner -- Information Rhythm: Attention Span  
-- News Coverage and Politics: Two to Tango -- Negative Discourse:  
Sensationalism vs. Solutions -- Trust in Media: Collaboration Is  
the New Trend -- Gender and Minority Gaps: The Inclusion Perspective  
-- Misinformation: Journalists as Fact-checkers -- Media Framing:  
Want to Hear vs. Need to Know -- Managing Uncertainty in Times  
of Crisis -- Preparedness: Future Pandemics and Planetary Health --  
Conclusion -- References -- Chapter 17: News Coverage of Science  
and Health Policy: Impacts on Public Opinion and Policy Outcomes --  
Introduction -- Theoretical Grounding -- Defining Health and Science  
Policy -- News Coverage of Selected Science and Health Policy Issues --  
News Coverage of Healthcare Cost and Access Policies -- News  
Coverage of Policy Related to Chronic Diseases -- News Coverage  
of Communicable Disease Prevention and Response Policies -- News  
Coverage of Environmental/Climate Change Policy -- News Coverage  
of Genetically Modified Organisms -- News Coverage

of Nanotechnology -- The Impact of News Coverage on Science  
and Health Policy -- Gaps in the Research: What We Don't Yet Know --  
References.

Chapter 18: It's Not All Bad News: Solutions-Oriented Journalism  
Approaches.
