Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction -- Anorexia Nervosa -- Anxiety -- Depression -- Gender Dysphoria -- Sleeping Difficulties.
Sommario/riassunto	This book provides a comprehensive overview of the experiences and challenges faced by autistics who also have co-occurring psychological conditions such as anxiety, depression, and gender dysphoria. The topic of autistics with co-occurring psychological conditions is currently of particular importance to the field of autism research because research has shown that a significant proportion of autistics also have co-occurring psychological conditions. However, these co-occurring conditions are often overlooked or misdiagnosed, which can lead to inappropriate or ineffective treatment. This book fills a critical gap in the literature by providing a comprehensive resource that addresses the specific needs of this population. This book aims to increase understanding and awareness of these co-occurring conditions among autistics, their families, caregivers, and mental

health professionals.
