#### Sommario/riassunto

This proceedings book provides selections from the 2022 Topical Issues in International Political Geography (TIPG) meeting. It addresses the main issues of contemporary political geography and international relations, providing a platform for discussion and collaboration of experts primarily in the fields of Political Geography, Geopolitics, and International Relations. Participants from all over the world consider the controversies and challenges posed by globalization, focusing, in particular, on the ideologies of globalization and regionalism, migration crises, prevention of ethnic conflicts, and measures to promote sustainable development. The content of the book will be interesting to experts, academics, and students in these communities.
