Soggetti	Genealogy
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Der Band knüpft an das wissenshistorisch und praxeologisch orientierte Interesse an Genealogie an, wie es vor allem in der Geschichte der Vormoderne der letzten Jahre formuliert wurde. Dabei wird in den Blick genommen, wie sich im Bereich der Genealogie die Verschränkung und gegenseitige Beeinflussung wissenschaftlicher und populärer Praktiken, etwa in Vereinen, auswirkte. Genealogische Forschungspraxis wurde zudem als Wissensfeld in historischen, sozialwissenschaftlichen, naturwissenschaftlichen und medizinischen Fachern genutzt. Wie zirkulierte genealogisches Wissen zwischen Vereinen, Universitäten, religiösen und staatlichen Behörden und Archiven seit dem 19. Jahrhundert, und für welche gesellschaftlichen Ordnungsvorstellungen wurde es verwendet? Wie dynamisieren der Medienwandel und Strategien des Open Access in Archiven die Produktion von Genealogien? Mit Beiträgen von Bertram Fink, Manfred Gailus, Bernd Gausemeier, Michael Hecht, Katrin Heil, Amos Kuster, Daniel Menning, Niklas Regenbrecht, Jan Ripke, Nicolas Rugge, Jan Ruhkopf, Astrit Schmidt-Burkhardt, Marianne Sommer, Elisabeth Timm, Fiona Vicent. What was the significance of searching for and finding "family" and kinship through the ages? Which methods and strategies did actors use to produce relational connections, and into what structures and discourses can these practices be categorized? This volume takes up new insights from research into premodernity based on the history of

knowledge and praxeology.
