lens -- Growing in maturity, growing in faith, growing out of crime: the role of children's and young people's faith in desistance -- The application of desistance thinking to children -- Desistance approaches in youth justice: conceptualisations, barriers and enablers -- Summer Arts Colleges: using the arts to promote educational engagement and desistance -- Desistance through participatory practice: involving children in decision-making processes in youth justice -- Relationship-based work with children in the youth justice system -- Through a youth justice practitioner's lens: would a sentencing alternative to a criminal conviction be a small change with a big impact on children's desistance? -- Innovative and theoretically informed intervention programmes for children who offend: The Compass Project -- What next for desistance and youth justice? -- Index

Sommario/riassunto

'Desistance' - understanding how people move away from offending - has become a significant policy focus in recent years, with desistance thinking transplanted from the adult to the youth justice system in England and Wales. This book is the first to critique this approach to justice-involved children.
