Edizione	[1st ed.]
Descrizione fisica	1 online resource (ix, 198 pages) : illustrations, charts; digital file(s)
Collana	New approaches to conflict analysis
Disciplina	303.6095694 322.1095694
Soggetti	Democracy - Israel Jewish radicals - Israel
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record. First published: 2002.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	List of tables and figures --Preface --Introduction: the 'defending democracy' in Israel - a framework of analysis --1. The Israeli response to extremism: the parliamentary arena --2. The State's response to extremism: attitudes towards subversive movements and violent organisations --3. The Israeli response to extremism: the social sphere --4. The role of 'civil society' in the 'defending democracy' --5. The 'defending democracy': from the 'militant' to an 'immunised' route? -- Index.
Sommario/riassunto	Ami Pedahzur looks at the theoretical issue of how a democracy can defend itself from those wishing to subvert or destroy it without being required to take measures that would impinge upon the basic

principles of the democratic idea, with a case study of the Israeli response to Jewish extremism.

Sommario/riassunto

This book constitutes the proceedings of the 11th International Conference on Big Data Analytics in Astronomy, Science, and Engineering, BDA 2023, which took place in Aizu, Japan during December 5–7, 2023. The 19 full papers included in this book were carefully reviewed and selected from 55 submissions. They were organized in topical sections as follows: Data management and visualization; data science: architectures and systems; data science and applications; and cyber systems and information security. .
