

1. Record Nr.	UNINA9910857781403321
Autore	Tappia Paramjit S
Titolo	Lipophilic Vitamins in Health and Disease
Pubbl/distr/stampa	Cham : , : Springer International Publishing AG, , 2024 ©2024
ISBN	3-031-55489-2
Edizione	[1st ed.]
Descrizione fisica	1 online resource (411 pages)
Collana	Advances in Biochemistry in Health and Disease Series ; ; v.28
Altri autori (Persone)	ShahAnureet K DhallaNaranjan S
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Contents -- Contributors -- Part I General Aspects of Lipophilic Vitamins -- 1 The Cardio-protective Effect of Fat-Soluble Vitamins on Anti-cancer Drug Induced Cardiotoxicity -- Introduction -- Chemotherapy Drugs Inducing Possible Mitochondrial Damage -- Disruption to the Sarcomere Structure -- Vitamin D3's Cytoprotective Effect Through Various Signaling Pathway -- Synergistic Effect of Pirfenidone and Vitamin D -- Safety Efficacy of High-Dose Vitamin D Supplementation -- Synergistic Effect of Eicosapentaenoic Acid and Vitamin E -- Synergistic Effect of Hesperidin and Vitamin E -- Vitamin E's Protective Effect on Cisplatin Induced Cardiotoxicity -- Conclusion and Discussion -- Strengths and Limitations -- References -- 2 Fat Soluble Vitamins in the Ocular, Cardiac, and Infectious Diseases: Myths and Misconceptions -- Fat Soluble Vitamins -- The Role of Fat-Soluble Vitamins in Eye Health and Disease -- The Role of Fat-Soluble Vitamins in Cardiovascular Diseases (CVD) -- More Concentrations on Vitamin D -- Myths and Misconceptions About Fat-Soluble Vitamins -- Conclusions -- References -- 3 The Effects of Lipophilic Vitamins on Women's Heart Health -- Cardiovascular Disease in Women -- The Beneficial Effect of Vitamins a and D on Women's Heart Health -- Vitamin E and Women's Heart Health -- Vitamin K and Women's Heart Health -- Clinical Studies and Epidemiological Evidence of the Effect of Lipophilic Vitamins

on Women's Heart Health -- Potential Risks and Considerations --
References -- 4 Mitigation of Dementia and Alzheimer's Disease
with Lipophilic Vitamins and Their Derivatives: Preclinical and Clinical
Evidence -- Introduction -- Overview of Pre-clinical Studies --
Supportive Evidence from Clinical Studies -- Nanotechnological
Interventions in Promoting the Systemic Delivery of Vitamins.
Challenges and Opportunities in the Management of Neurodegenerative
Diseases with Nanotechnology Delivery Systems -- References -- 5
Lipid-Soluble Vitamins: Their Roles in Cardiovascular Health
and Diseases -- Introduction -- Vitamin A -- Overview -- Conversion
of Carotenoids into Vitamin A -- Biochemical Reactions that Utilize
Vitamin A -- Vitamin D -- Overview -- Biosynthesis of Vitamin D --
Biochemical Reactions -- Vitamin E -- Overview -- Biosynthesis --
Biochemical Reactions -- Vitamin K -- Overview -- Biosynthesis --
Biochemical Reactions and Cardiovascular Health -- Conclusion --
References -- 6 Interactions Between Gut Microbiota and Lipophilic
Vitamins in Health and Disease -- Introduction -- Interactions of Fat-
Soluble Vitamins with the Gut Microbiome to Maintain Physiological
Homeostasis: Cellular and Molecular Insights -- Vitamin A -- Vitamin D
-- Vitamin E -- Vitamin K -- Diseases Implicated for Gut
Microbiome/lipophilic Vitamin Interaction Axis: A Pharmacological
Overview -- Inflammatory Bowel Disease -- Neurological Complications
-- Cancer Immunotherapy & -- Beyond -- Ageing -- Limitations
in Current Understanding -- Future Perspectives -- Conclusion --
References -- Part II Vitamin E and Associated Metabolites in Health
and Disease -- 7 The Potential Role of Tocotrienols Against
Cardiovascular Diseases -- Introduction -- Structural and Chemical
Differences Between Tocotrienol and Tocopherol Molecules that May
Give Rise to Their Distinct Properties -- Dietary Sources -- Potential
Role of Tocotrienols Against Cardiovascular Diseases: Inflammation
and Immune Response -- Potential Role of Tocotrienols Against
Cardiovascular Diseases: Cholesterol Metabolism and Homeostasis --
Concluding Remarks -- References -- 8 Recent Progress
on the Skeletal Research of Tocotrienol -- Introduction -- Deposition
of Tocotrienol in the Bone.
Effects of Tocotrienol on Osteocytes and Wnt -- Effects of Tocotrienol
on Mevalonate Pathway -- Effects of Tocotrienol on Bone in Humans --
Effects of Tocotrienol on Other Aspects of Bone Remodelling --
Research Gaps -- Conclusion -- References -- 9 Importance of Vitamin
E and Its Metabolism for Health and Disease -- Introduction --
Metabolism of Vitamin E -- Diseases with Vitamin E Relevance --
Ataxia with Vitamin E Deficiency -- Cardiovascular Diseases -- Non-
alcoholic Fatty Liver Disease -- Skin Health and Atopic Diseases --
Conclusions and Outlook -- References -- 10 Beneficial Effects
of Vitamin E Combined with Antioxidants in Cardiovascular System
Disorders: Experimental Evidence -- Introduction -- Metabolism
and Functions of Vitamin E -- Vitamin E: Action in the Cell Membrane
and Interaction with Intracellular Binding Proteins -- Vitamin E
and Cardiovascular Function -- Beneficial Effects of Combined
Treatment with Vitamin E and Other Antioxidants in the Cardiovascular
System -- Conclusions -- References -- 11 Vitamin E
for the Prevention and Treatment of Cardiovascular Disease --
Introduction -- Antioxidant Mechanism of Action of Vitamin E --
Vitamin E in Different Types of CVD -- Consideration for Other Classes
of Vitamin E in CVD -- Role of Vitamin E in CVD in Diabetes --
Conclusion -- References -- 12 Vitamin E (Tocopherol): Implications
in Cardiovascular Health and Neuroprotection -- Introduction --
Tocopherol Versus Tocotrienols -- Vitamin E as a Cofactor/Co-Enzyme

in Various Metabolism -- Vitamin E-as an Antioxidant Property Against Lipid Peroxidation -- Scavenging Avenger of Vitamin E -- Vitamin E in Cell Membrane Protection -- Vitamin E in Primary Cardiac Prevention -- Vitamin E in Secondary RCT -- Vitamin E in Cardiac Muscle Recovery. Vitamin E-as a Neurodegenerative Agent and in Randomized Clinical Trials of Various Neurodegenerative Diseases -- Alzheimer's Diseases-Aging -- Pathogenesis of AD -- Proofs that Oxidative Damage Induced Damage of the Brain in AD Patients -- Vitamin-E Against AD -- Vitamin E in AD-Induced Animal Experimentation -- Clinical Trials with Vitamin E in AD Patients -- Neuroplasticity -- Parkinson's Disease -- Seizure's -- Purkinje Neurons Versus Vit-E -- Conclusion -- References -- Part III Functional Aspects of Vitamins A, D and K -- 13 Retinoids and the Vitamin a Receptor STRA6 in Health and Disease -- Introduction: The Importance of Vitamin a -- Vitamin a Metabolism -- Retinoid Signalling -- Retinoids in Cancer -- Retinoids in Development -- Retinoids in Skin -- STRA6 as the Receptor for RBP -- STRA6 in Disease (I): The Mathew Wood Syndrome -- STRA6 in Disease (II): Cancer -- STRA6 in Disease (III): Insulin Resistance -- Conclusions -- References -- 14 A Vitamin Treatment for Motor Neurone Disease -- Introduction -- Amyotrophic Lateral Sclerosis -- Retinoic Acid and the Retinoic Acid Receptor -- Retinoids as a Potential Therapeutic for Amyotrophic Lateral Sclerosis -- Conclusions -- References -- 15 Vitamin D and Its Role on Inflammation, Oxidative Stress and Cardiovascular Disease -- Introduction -- Vitamin D -- Biosynthesis -- Mechanism of Action -- Oxidative Stress, Inflammation and Cardiovascular Conditions -- Vitamin D, Inflammation and Oxidative Stress -- Vitamin D and Cardiovascular Risk -- Conclusion -- References -- 16 Vitamin D and Immune Function: Unraveling the Connections -- Introduction -- Vitamin D and Health -- Recommended Levels of Vitamin D -- Vitamin D and Immunity -- Vitamin D and Immune Cells -- Vitamin D and the Innate Immune System -- Vitamin D and the Adaptive Immune System. Vitamin D and Its Connection in Autoimmune Diseases and Immune-Related Disorders -- Type I Diabetes (T1D) -- Psoriasis -- Multiple Sclerosis (MS) -- Rheumatoid Arthritis (RA) -- Systemic Lupus Erythematosus (SLE) -- Miscellaneous -- Conclusion -- Conflicts of Interest -- References -- 17 Maternal Vitamin D Levels During Gestation and Impact on Offspring's Risk of Non-communicable Diseases in Adulthood -- Background -- Why Vitamin D Matters? -- Vitamin D Level During Pregnancy and Infancy -- Vitamin D Effect on Fetal Growth and Neonatal Anthropomorphic Features -- Vitamin D Effect on Immune Response During Pregnancy -- Vitamin D Level During Adolescence -- Maternal Vitamin D Deficiency and Risk of Communicable Disease in Adulthood -- Vitamin D Metabolism During Pregnancy -- Vitamin D Supplementation During Gestation -- Fetal Programming and Vitamin D -- Conclusion -- References -- 18 Unveiling the Link of Vitamin D and Diverse Cardiovascular Disorders: Current Status and Future Prospective -- Introduction -- Vitamin D: Its Physiological Role and Deficiency -- Link Between Vitamin D and Various Cardiovascular Disorders -- Role of Vitamin D in Cardiomyopathy -- Role of Vitamin D in Pulmonary Arterial Hypertension -- Role of Vitamin D in Myocardial Infarction -- Role of Vitamin D in Cardiac Fibrosis and Remodeling -- Role of Vitamin D in Heart Failure -- Role of Vitamin D in Arrhythmias -- Role of Vitamin D in Endothelial Dysfunction -- Role of Vitamin D in Other Disorders -- Major Challenges and Future Directions -- Conclusion -- References -- 19 Environmental Pollution-Induced Vitamin D Deficiency and Its Impact on the Outcomes of Pregnancy -- Introduction -- Vitamin D --

Vitamin D Synthesis and Metabolism -- Vitamin D Metabolism
in Pregnant Women -- Vitamin D and Calcium Metabolism in Pregnancy
-- Physiological Effects Concerning Calcium and Phosphate.
Environmental Pollution and Vitamin D Deficiency During Pregnancy.
