Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>"For millennia, the Chinese have taught that a balanced and nutritious diet is an integral part of maintaining good health while healing a wide range of disorders. Here, in a new, third edition of the acclaimed Chinese Nutrition Therapy, the author further demystifies Chinese dietetics, one of the pillars of Traditional Chinese Medicine (TCM). Joerg Kastner's introduction to the principles of TCM and the "energetics" of foods emphasizes a holistic approach throughout, providing readers with tools for integrating the principles of Chinese dietetics into their daily lives. Included are a comprehensive classification of more than 300 readily available foods: vegetables, grains, herbs and spices, fruit, meat, seafood, dairy products, and oils and fats. Many clinical examples and treatment suggestions artfully combine Western medical conditions with Chinese diagnostic and therapeutic techniques. The explanation of causes of diseases according to Traditional Chinese Medicine, the different symptoms, and the lists of recommended foods and foods to avoid are supplemented by advice on the appropriate acupuncture treatments. This third edition has been expanded with chapters covering allergies, food sensitivities, dietary support in oncologic cases, fasting, "superfoods" and smoothies. Where</p>

appropriate, bridges have been constructed between the paradigms of TCM and those of contemporary scientific medicine. Highlights: -
