Sommario/riassunto	"Cornerstone on Information Law is a one-volume practical guide focused on data protection law, freedom of information and the environmental information regulations. Covering the GDPR and the Data Protection Act 2018, the title is up to date with adaptations to UK data protection law in the event of Brexit; while also explaining the law before Brexit, or if it does not occur. It is an essential reference work for Data Protection Officers/FOI Information Officers and busy in-house lawyers in local authorities and the public sector generally; and, those in large and small businesses with data protection responsibilities. It covers the essential areas for practitioners in this fast-changing framework"--Amazon.
