|   | Sommario/riassunto      | Focusing on these developing problems and growing troubles, this<br>book mainly discusses economic growth issues related to demographic<br>transition, as well as livelihood issues derived from them and closely<br>related to policy logic. It aims to make theoretical analysis and provide                                                                                                                                                                                                                                                                                                 |

necessary international experience and lessons and put forward targeted policy advice. This book proposes a three-pronged pattern of competition policy, industrial policy, and social policy to achieve productivity improvement and innovation momentum; gives full play to China's super-large market advantages, attractiveness and negotiating position; and promotes each other through domestic and international dual cycles to achieve a higher level of development.
