Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Understanding the relationships between local communities and project-based organizations: Evidence from major public infrastructure and construction projects -- Searching the network core in mega projects teams -- New professional competencies for Italian Public Administration: Project Management and the Sole Responsible Project Manager in the new Procurement Code -- Administration Financial, Megaprojects and the Cooperative Compliance Regime -- Are (New) Developments on the Way? -- Megaprojects' Social Sustainability and Workers' Human Rights -- TAX CREDITS AND PILLAR 2: AN ASSESSMENT IN THE LIGHT OF THE UPCOMING IMPLEMENTATION OF THE GLOBAL MINIMUM TAX -- Ecological transition and megaprojects:

what role for taxation? -- Sustainability disclosure of sports mega-events: a bibliometric review article -- Widening the vision: a holistic evaluation framework for megaproject performance -- Accounting for Impact: Bridging the Gap in Megaproject Social Impact Evaluation.

Sommario/riassunto

This book showcases the discussion about megaprojects carried out at the MeRIT (Megaproject Research Interdisciplinary Team) workshop 2023: the crisis, discontinuity, rising prices, and supply chains disruption force radical reflection for those involved in megaprojects. It raises a modern-day challenge, the creation of value for stakeholders. Indeed, the aim of the volume is to encourage readers to think more broadly, articulately and less stringently than the mainstream claims. There is a need to design, implement, and manage megaprojects by abandoning the old paradigm that leveraged solely on time and cost. We need to move beyond that by going to explore the value generated, the positive impact on people, communities and territories. Economic, social and environmental sustainability takes on a new and broader articulation: issues of the circular economy applied to megaprojects are addressed and ample space is ensured for the inclusion of social needs in current practices.
