

1. Record Nr.	UNINA9910861098503321
Autore	Suri Vinit
Titolo	Clinical Neurological Examination and Localization // by Vinit Suri
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2024
ISBN	981-9705-79-7
Edizione	[2nd ed. 2024.]
Descrizione fisica	1 online resource (473 pages)
Disciplina	616.80475
Soggetti	Neurology Clinical medicine - Research Nervous system - Diseases Neuroanatomy Clinical Research Neurological Disorders
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1 Introduction -- Chapter 2 Basic Neuroanatomy -- Chapter 3 The Neurological History -- Chapter 4 The Neurological kit -- Chapter 5 The Neurological Examination Format -- Chapter 6 Mental Status Examination Screen -- Chapter 7 Lobar function -- Chapter 8 Frontal Lobe -- Chapter 9 Parietal lobe -- Chapter 10 Temporal lobe -- Chapter 11 Occipital lobe -- Chapter 12 Examination of Speech Language disorders, Dysarthria and Dysphonia -- Chapter 13 Cranial Nerve Examination -- Chapter 14 Olfactory nerve -- Chapter 15 Optic nerve -- Chapter 16 Oculomotor, trochlear and abducens nerve -- Chapter 17 Trigeminal nerve -- Chapter 18 Facial nerve -- Chapter 19 Vestibulo – cochlear nerve -- Chapter 20 Glossopharyngeal and Vagus nerve -- Chapter 21 Spinal accessory nerve -- Chapter 22 Hypoglossal nerve -- Chapter 23 Motor system examination -- Chapter 24 The Reflexes Superficial reflexes Deep tendon reflexes -- Chapter 25 The Sensory system examination -- Chapter 26 Cerebellar examination and examination of posture , stance and gait -- Chapter 27 Involuntary movements -- Chapter 28 Examination of Skull, Spine ,Nerves and Neuro-cutaneous markers -- Chapter 29 Autonomic nervous system Examination -- Chapter 30 The peripheral nerve Examination --

Chapter 31 Examination of the Unconscious patient -- Chapter 32 Miscellaneous Neurological signs -- Chapter 33 Summary of localization -- Chapter 34 Lumbar puncture -- Chapter 35 Nerve conduction ,Electromyography and Evoked Potentials -- Chapter 36 Electro Encephalogram – EEG -- Chapter 37 Transcranial Doppler- TCD -- Chapter 38 Magnetoencephalography (MEG) -- Chapter 39 Biopsy. .

Sommario/riassunto

This book will provide a concise, focused overview of methods of neurological examination, enabling a focused clinical approach for localization in patients with neurological disorders. Chapters provide a systematic approach for clinical examination along with essential aspects of the neuro-anatomy to provide specific information about disease localization. This book assists medical students pursuing DM/DNB- Neurology, MCH -Neurosurgery, MD/DNB- Internal medicine, MBBS students, and Clinicians, including Neurologists, Neurosurgeons, Internal medicine physicians, and other neuro-scientists. It provides a unique opportunity to formulate correct concepts for clinical neurological examination and hence localization but also provides the opportunity to quickly revise the entire book in a short time.
