Disciplina	418 303.482
Soggetti	Intercultural communication Translating and interpreting Computational linguistics Religion and culture Intercultural Communication Language Translation Computational Linguistics Cross-cultural Studies
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Theoretical Frameworks and Hypotheses of sustainability translation -- The development of multilingual sustainability terminology -- Multilingual corpus annotation with extra-linguistic information -- Corpus-Based Study of the Translation and Interaction of localized sustainability terms -- Construction of Empirical Social Diffusion Models for sustainability Cultures.
Sommario/riassunto	This open access book illustrates the key steps and procedures of developing mental health scales into linguistically and culturally appropriate translations. Through illustrative case studies, we demonstrate that traditional forward and backward translation have significant methodological limitations when applied in mental health scale translation, such as linguistic and cultural inaccessibility and inaccuracy in the clinic. Our book will stimulate more academic debates and further systematic research into the significant, interdisciplinary area of mental health translation, which has been underexplored in
