Sommario/riassunto	This book captures the dynamic relationship between COVID-19 pandemic, crude oil prices and major stock indices as well as the crude oil prices and stock market volatility that have been caused due to outbreak of this pandemic. The pandemic has changed the world melodramatically and major world markets collapsed in the beginning, affecting major industries in an unprecedented way. The book will be

useful to the researcher in the field of finance and economics, and policy makers both at government and private level, keeping in view the present state of economy throughout the world.
