

1. Record Nr.	UNINA9910865243303321
Autore	Sikander Afzal
Titolo	Advances in Energy and Control Systems : Select Proceedings of the 5th International Conference, ESDA 2022 // edited by Afzal Sikander, Marta Zurek-Mortka, Chandan Kumar Chanda, Pranab Kumar Mondal
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2024
ISBN	9789819701544 9789819701537
Edizione	[1st ed. 2024.]
Descrizione fisica	1 online resource (582 pages)
Collana	Lecture Notes in Electrical Engineering, , 1876-1119 ; ; 1148
Altri autori (Persone)	Zurek-MortkaMarta ChandaChandan Kumar MondalPranab Kumar
Disciplina	621.31
Soggetti	Automatic control Robotics Automation Renewable energy sources Electric power distribution Control, Robotics, Automation Renewable Energy Energy Grids and Networks
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	A New Criss-Cross based asymmetrically configured T-Type Multi-level Inverter -- Estimation of State-of-Charge for Lithium-Ion EV Battery Packs using Passive Cell Balancing -- A Comprehensive Review Based on Conventional and Artificial Intelligence Strategies for MPPT based Solar PV System -- Application of a BDDC bidirectional brushless DC drive on a pump hydro energy storage system -- A Dual Axis Sun Tracking Solar Panel Controlling By Arduino -- Performance of a modified impedance source inverter in solar power system -- Stability aware Low power 8T SRAM Cell using CNFET in 22nm Technology -- A comparison of STATCOM and modified-UPFC 3-level inverters in renewable energy -- A Comparative Analysis of Different Methods of

Soc Estimation in The Electric Vehicle -- Analysis and Design of Single phase Z-source inverter with different PWM techniques for Standalone PV system -- A Novel HK-Type Multi-level Inverter for Reduced Power Electronic Devices -- A review on incipient fault detection, location and classification in underground cable -- FinFET Fractional order Injection Locked Oscillator -- The performance of Solar PV panels and arrays affected by outdoor parameters -- Incipient Fault classification in Underground Distribution Cable Using Fine Decision Tree Classifier -- Analysis of High Frequency AlGaN/GaN Based HEMT for Resistive Load Inverter -- Electrical Performance Analysis of 20 nm Gate Length Based FinFET -- Soliton Propagation And Its Applications -- Study of High Electron Mobility Transistor for Bio-logical Sensors -- A Modified Square Shaped Slotted Patch Antenna Based on Defective Ground Structure for Wireless Communication -- Novel and Secure Framework for Secure Cryptography for Future IoT Applications -- Heart Problem Prediction Using Machine Learning Technique -- Estimation of prioritization of test cases using Machine learning algorithms -- An Intelligent Personalized E-Learning System based on Dynamic Learner's Preference -- Performance Analysis of Cost Measure Methods to calculate Motion Vector in Motion Estimation Algorithms -- Optimal control of Malicious Codes in a Computer Network by Quarantine and Isolation Strategy -- Quarantine Approach to Defend Against Malicious Codes in a Traditional Antivirus Computer Network -- A Review on Role of Soft-Computing (SC) Techniques in Microgrid Energy Management Systems -- Potato Plant Leaf disease classification using Deep CNN -- Classification of Lung Cancer using Deep Learning -- Review Paper on Glaucoma Detection Using Machine Learning -- Modification of Evolutionary Algorithm Using Wavelet Transformation -- Monitoring Water Quality based on Potability using Machine Learning and IoT -- Empirical Research on Electronic Education Perception Post Covid-19 -- Empirical Research on Global Education: Comprehending Higher Education Policies -- A Study on Workplace Happiness & The Impact of Work Life Balance on Workplace Happiness at Etron Isolution, Pvt Limited -- Bankers' Awareness, Perception, Willingness to Use The Digital Rupee and its Potential Implications For the Indian Economy -- Revolutionizing Digital Marketing with Artificial Intelligence Solutions: A Four-Step Sequential Model -- Comprehending the relevance of industry, innovation and infrastructure in United Kingdom: A Research on SDG-9 (Sustainability Development Goal-9) -- Examining the Impact of Foreign Aid on Electrical Infrastructure Development in South Asian Countries: Comprehending the correlation between Foreign Aid and Corruption -- Developing Innovative Technology in Admission System for Chinese Higher Education Institutions: Explanatory Research on Cultural Identity Education -- Investigating the role of Industrial Design in Manufacturing and Production firms: Identifying the role of Engineering Concepts -- User Centred Design Model Towards User Satisfaction in Using Online Information Of Smart Government -- Multi-pitch detection using Complex Morlet wavelet-based technique -- Reviewing the Role of CounterfeitMedicines in the Healthcare Sector: An Engineering Perspective -- Portfolio Management of Private Islamic Banks: Review of Current State of Affairs, Trends and Islamic Banking in Malaysia.

Sommario/riassunto

This book gathers selected research papers presented at the 5th International Conference on Energy Systems, Drives, and Automation (ESDA 2022). It covers a broad range of topics in the fields of renewable energy, power management, drive systems for electrical machines, and automation. This book also comprehensively discusses related tools and techniques and is a valuable resource for researchers,

professionals, and students in electrical and mechanical engineering disciplines.
