

1. Record Nr.	UNINA9910865255303321
Autore	Duffy Vincent G
Titolo	Digital Human Modeling and Applications in Health, Safety, Ergonomics and Risk Management : 15th International Conference, DHM 2024, Held As Part of the 26th HCI International Conference, HCII 2024, Washington, DC, USA, June 29-July 4, 2024, Proceedings, Part III
Pubbl/distr/stampa	Cham : , : Springer, , 2024 ©2024
ISBN	9783031610660 9783031610653
Edizione	[1st ed.]
Descrizione fisica	1 online resource (430 pages)
Collana	Lecture Notes in Computer Science Series ; ; v.14711
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Foreword -- HCI International 2024 Thematic Areas and Affiliated Conferences -- List of Conference Proceedings Volumes Appearing Before the Conference -- Preface -- 15th International Conference on Digital Human Modeling and Applications in Health, Safety, Ergonomics and Risk Management (DHM 2024) -- HCI International 2025 Conference -- Contents - Part III -- Work, Safety, and Ergonomics -- Ergonomic Improvement and Simulation Analysis of Armrests for Uncomfortable Working Environments -- 1 Introduction and Background -- 2 Product Analysis -- 2.1 Market Analysis -- 2.2 Structural Analysis -- 2.3 Improvement -- 3 Experiment Research -- 3.1 Subject -- 3.2 Process -- 4 Results and Discussion -- 4.1 RULA Analysis -- 4.2 Simulation Analysis -- 4.3 Conclusion -- References -- Ergonomics for Work-Life Balance: A Systematic Review -- 1 Introduction and Background -- 2 Purpose of Study -- 3 Data Collection -- 3.1 Textbook References -- 3.2 Methodology -- 4 Discussion and Conclusions -- 4.1 Content Analysis -- 4.2 Insights -- 4.3 Summary -- 5 Strengths and Limitations -- 6 Future Work -- References -- Ergonomic Evaluation of a VTOL Aircraft Using RAMSIS -- 1 Introduction and Background -- 2 Hypothesis -- 3 Procedure -- 3.1 Task 1 - Creating Body Measurements -- 3.2 Task 2 -- 3.3 Task 3 --

3.4 Task 4 -- 3.5 Task 5 -- 3.6 Task 6 -- 4 Conclusion -- 4.1 Observations -- 4.2 Parameter Specific Discussion -- 5 Limitations -- 6 Literature Review -- References -- A Systematic Literature Review of Ergonomics in Transportation Focused on Driver Fatigue and Safety -- 1 Introduction and Background -- 2 Purpose of Study -- 3 Procedure -- 3.1 Identification of Topic and Key Words -- 3.2 Data Collection -- 3.3 Trend Analysis -- 3.4 Content Analysis -- 3.5 Co-citation Analysis -- 4 Discussion -- 5 Conclusion and Future Work -- 5.1 Conclusion.

5.2 Potential Directions for Further Research -- References -- A Literature Review of Trends in Personal Protective Equipment -- 1 Introduction and Background -- 1.1 Definitions -- 2 Purpose of Study -- 3 Procedure -- 3.1 Identifying Driving Factors of PPE Research -- 3.2 Data Visualization Methods -- 4 Results and Discussion -- 4.1 Trends in PPE Research -- 4.2 Leading Sources of PPE Research -- 4.3 PPE in Various Industrial Applications -- 4.4 Relevance to Human Factors and Ergonomics -- 5 Conclusions and Future Work -- 5.1 Importance of PPE Research -- 5.2 Societal Influences -- 5.3 Covid-19 PPE -- 5.4 Industrial PPE -- 5.5 Future Work -- References -- Improving Construction Safety: The Role of Workplace Stressors and Personality Traits on Near-Miss Recognition of Workers' -- 1 Introduction -- 2 Related Work -- 2.1 Impact of Workplace Stress on Worker Safety Behavior in Construction Industry -- 2.2 Use of Physiological Parameters and Eye Tracking in Safety Assessment and Cognitive Load -- 3 Material and Methods -- 3.1 Participants -- 3.2 Stimuli Images and Area of Interest (AOIs) -- 3.3 Research Instruments -- 3.4 Experimental Methodology -- 4 Data Analysis -- 4.1 Eye-Tracking Data Processing -- 4.2 Pupil Diameter Extraction -- 4.3 Personality Assessment -- 4.4 Statistical Analysis -- 5 Results -- 5.1 Effect of Workplace Stressors on Cognitive Load During Near-Miss Recognition -- 5.2 Association Between Personality Traits and Pupil Diameter -- 6 Conclusion -- References -- Navigating the Ergonomic Challenges of Remote Work: A Closer Look at Neck and Lower Back Pain -- 1 Introduction and Background -- 1.1 Introduction -- 1.2 Background -- 2 Purpose -- 3 Procedures -- 3.1 Data Collection -- 3.2 Trend Analysis -- 4 Results -- 4.1 Content Analysis with VOSviewer -- 4.2 Leading Tables from Scopus Analysis -- 4.3 Content Analysis with NVIVO.

4.4 CiteSpace Citation Analysis -- 5 Discussion -- 5.1 Emergence of Remote Work -- 5.2 Neck Pain from Telework -- 5.3 Benefits of Telework -- 6 Future Work -- References -- Integrating Extended Reality (XR) in a Smart Factory Environment: Systematic Review -- 1 Introduction and Background -- 1.1 Relevant Definitions -- 2 Methodology -- 2.1 Analysis Tools -- 3 Results -- 3.1 Search Results -- 3.2 Trends -- 3.3 Cluster Analysis -- 4 Discussion -- 4.1 Topic Relevance -- 4.2 Application Justification -- 4.3 Academic Justification -- 4.4 Topic Reprisal -- 5 Conclusion -- 6 Future Work -- References -- Research on the Risk of Radar Antenna Array Maintenance Operations in Real Working Conditions Based on Intelligent Evaluation Tools -- 1 Introduction -- 2 Materials and Methods -- 2.1 Experimental Scenarios and Maintenance Tasks -- 2.2 Experimental Data Collection -- 2.3 Data Analysis Methods -- 3 Evaluation Results -- 4 Discussion -- 5 Conclusions -- References -- Trend Analysis of AR-Assisted Assembly Visualization Design Based on Bibliometrics -- 1 Introduction -- 2 Methods -- 2.1 Experiment Methodology -- 2.2 Experiment Data Source -- 3 Experiment Results -- 3.1 Publication Trends -- 3.2 High-Frequency Keywords -- 3.3 High-Frequency Areas -- 3.4 Organizations -- 3.5 Main Publications --

3.6 Highly Cited Papers -- 4 Discussion -- 4.1 AR-Assisted Assembly Visualization in Comparison to Traditional Assembly -- 4.2 AR-Assisted Assembly Visualization Between Different Carriers -- 4.3 AR-Assisted Assembly Visualization in Visual Design -- 5 Conclusion -- References -- Research on the Process Efficiency of Metro Security CheckSystem Under the Perspective of Spatial Guidance -- 1 Introduction -- 1.1 Methods -- 1.2 Pre-experimental Planning -- 1.3 Location Selection and Research -- 1.4 Interview Planning and Implementation: -- 2 Results.

2.1 Interview Results Processing -- 2.2 Interview Results Processing Methods: -- 2.3 Procedural Rooting Theory Steps -- 2.4 Representative Factors Extracted After Coding (Partial Listing) -- 2.5 Analysis and Summary of Experimental Results: -- 3 Discussion and Conclusion -- References -- Ergonomics, Artificial Intelligence and Smart Technologies -- Artificial Intelligence and Transportation - The Emergence of New Technologies and the Related Impacts on the Transportation of People and Packages -- 1 Introduction and Background -- 1.1 Introduction -- 1.2 Background -- 2 Purpose of Study -- 3 Procedure and Analysis -- 3.1 Procedure -- 3.2 Analysis -- 4 Discussion and Reappraisal -- 5 Future Work -- 6 Conclusion -- Appendix -- Previous Work -- References -- An Outlook for AI Innovation in Multimodal Communication Research -- 1 Introduction -- 1.1 Goals of This Article -- 1.2 About Us -- 2 AI in Multimodal Communication Research -- 3 Current Obstacles -- 3.1 Manual Gesture -- 3.2 Making Sense of the (Bodily) Multimodal Ensemble -- 3.3 Pointing (Deixis) -- 3.4 Multimodal Ensembles and Gestalts -- 3.5 Temporal, Kinematic and Pragmatic Integration of Gesture and Prosody -- 3.6 Multimodal Feedback in Interaction -- 3.7 Dyadic Social Behavior - Basic Research and Clinical Applications -- 3.8 Diagrams and LLMs -- 3.9 Multimodal Perception of Emotional Expression in Voices and Faces by Cochlear Implant Users -- 3.10 Multimodal Modeling from a Dynamic Perspective -- 4 Long-Term Obstacles -- References -- Empowering Zero-Shot Object Detection: A Human-in-the-Loop Strategy for Unveiling Unseen Realms in Visual Data -- 1 Introduction -- 2 Deep Learning Base -- 3 Human-in-the-Loop Iterations -- 4 Adaptive Model Refinement -- 5 Case Studies -- 6 Discussion and Conclusion -- 7 Future Directions -- References.

More Than One Gesture but Less Than Two? Inter-stroke Dependencies in Form and Meaning -- 1 Introduction -- 2 Discourse Structure -- 2.1 Topics and Sub-topics in Discourse -- 2.2 Discourse Relations and Markers -- 3 Gesture Alignment and Interpretation -- 3.1 Lexical Affiliate Approach -- 3.2 Action-Schematic Approach -- 3.3 Gesture Segmentation -- 4 Data and Methodology -- 5 Results -- 5.1 Case Study 1: Gesture and Lexical Discourse Markers -- 5.2 Case Study 2: Gesture and Discourse-Topics -- 5.3 Case Study 3: Topic-Level and Discourse-Level Contrast -- 6 Discussion -- References -- Artificial Intelligence and Mobile Computing: Role of AI in Ergonomics -- 1 Introduction and Background -- 2 Problem Statement -- 3 Review Methodology -- 3.1 Literature Review -- 3.2 Defining Keywords -- 3.3 Data Collection -- 3.4 Trend Analysis -- 3.5 Assessing Engagement Using Vicinitas -- 3.6 Scopus Use for Data Collection -- 4 Results -- 4.1 Co-authorship Analysis Using VOS Viewer -- 4.2 Co-citation Analysis Using Citespace -- 4.3 Content Analysis Utilizing MAXQDA -- 4.4 Pivot Table -- 5 Discussion -- 6 Conclusion -- 7 Future Work -- References -- A Systematic Review of Collaborative Robots in Ergonomics -- 1 Introduction and Background -- 1.1 Introduction -- 1.2 Background -- 2 Purpose of Study -- 3 Research Methodology -- 3.1 Data Collection -- 3.2 Trend Analysis -- 4 Results -- 4.1 Co-

citation Analysis -- 4.2 Content Analysis Using VOSViewer -- 4.3
Citation Burst from CiteSpace -- 4.4 Pivot Table Using BibExcel -- 4.5
Content Analysis Using NVivo -- 5 Discussion -- 5.1 Established Areas
of Interest -- 5.2 Emerging Areas of Interest -- 6 Future Work -- 7
Conclusion -- References -- Exercise Recognition and Repetition
Counting for Automatic Workout Documentation Using Computer
Vision -- 1 Introduction -- 2 Problem Background -- 3 Experiment
Setup.
3.1 Data Sampling.
