1. Record Nr. UNINA9910865255503321

Autore	Ahmed Mukhtar
Titolo	Cropping Systems Modeling under Changing Climate
Pubbl/distr/stampa	Singapore : , : Springer Singapore Pte. Limited, , 2024 ©2024
ISBN	981-9703-31-X
Edizione	[1st ed.]
Descrizione fisica	1 online resource (438 pages)
Altri autori (Persone)	AhmadShakeel AbbasGhulam HussainSajjad HoogenboomGerrit
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Contents -- About the Authors -- 1: Cropping Systems and Application of Models -- 1.1 Cropping Systems -- 1.2 Global Cropping Systems -- 1.3 Cropping System Modeling -- 1.4 Conclusion -- References -- 2: Sequential Modeling -- 2.1 Introduction -- 2.2 Types of Multiple-Cropping Systems -- 2.2.1 Sequential Cropping -- 2.2.2 Intercropping -- 2.2.3 Relay Cropping -- 2.2.4 Mixed Cropping -- 2.3 Cropping Systems in the World -- 2.4 Cereal-Based Cropping Systems -- 2.4.1 Rice-Wheat Cropping System -- 2.4.2 Rice-Rice Cropping System -- 2.4.3 Wheat-Maize Cropping System -- 2.4.4 Rice-Maize Cropping System -- 2.5 Legume-Based Cropping Systems -- 2.6 Oilseed-Based Cropping Systems -- 2.7 Fodder-Based Cropping Systems -- 2.8 Cropping System Research -- 2.9 Decision Support System for Cropping System Research -- 2.10 DSSAT Model Description -- 2.11 DSSAT Sequence Analysis: Soybean-Chickpea Cropping System-A Case Study -- 2.11.1 DSSAT Sequence Analysis Program Description -- 2.11.2 Input and Output Files for DSSAT Sequence Analysis -- 2.11.3 DSSAT Sequence Analysis Program Operation -- 2.11.4 DSSAT Sequence Analysis's Economic Analysis -- 2.12 APSIM Model -- 2.13 APSIM Model Rotation Analysis: A Case Study of Wheat-Alfalfa Rotation -- 2.13.1 APSIM Model

Rotational Analysis Program Description -- 2.13.2 APSIM Rotational Program Operation -- 2.14 Conclusion -- References -- 3: Rice-Wheat System -- 3.1 Introduction -- 3.2 Issues of Rice-Wheat Cropping System -- 3.3 Rice-Wheat Modeling -- 3.4 Climate Change Influence on Rice-Wheat System Phenology -- 3.5 Climate Change Influence on Rice-Wheat System -- 3.5.1 Impact of Climate Change on Rice -- 3.5.2 Impact of Climate Change on Wheat -- 3.6 Rice-Wheat Cropping System Under Changing Climate: AgMIP Pakistan, a Case Study.
3.6.1 Sensitivity of Current Rice-Wheat System Productivity to Climate Change -- 3.6.2 The Impacts of Climate Change on Future Rice-Wheat System Production -- 3.7 Conclusion -- References -- 4: Maize-Maize System -- 4.1 Introduction -- 4.2 Issues of Maize-Maize System -- 4.3 Decision Support System for Agrotechnology Transfer -- 4.4 Climate Change and Temperature Trend -- 4.5 Climate Warming Impact on Maize Morphophysiological Responses -- 4.6 Impact of Climate Change on Crop Phenology -- 4.7 Case Study in Pakistan -- 4.8 Climate Change Impact on Current and Future Scenarios of Crop Productivity -- 4.9 Adaption Strategies -- 4.10 Conclusion -- References -- 5: Sunflower-Sunflower System -- 5.1 Introduction -- 5.2 Issues of Sunflower-Sunflower Cropping System -- 5.3 Decision Support System for Agrotechnology Transfer -- 5.4 Climate Change and Temperature Trend -- 5.5 Climate Change Impact on Sunflower Morphophysiological Responses -- 5.6 Impact of Climate Change on Crop Phenology -- 5.7 Case Study in Pakistan -- 5.8 Impact of Climate Change on Current and Future Scenarios of Crop Production -- 5.9 Adaption Strategies -- 5.10 Conclusion -- References -- 6: Cotton-Wheat System -- 6.1 Introduction -- 6.2 Description of Cropping System Investigated -- 6.3 Issues of Cotton-Wheat Cropping System -- 6.4 Cotton-Wheat Modeling -- 6.5 Climate Change Influence on Cotton-Wheat System Phenology -- 6.6 Impact of Climate Change on Cotton Production -- 6.7 Impact of Climate Change on Wheat Production -- 6.8 AgMIP Case Study -- 6.9 Conclusion -- References -- 7: Chickpea-Mung Bean System -- 7.1 Introduction -- 7.2 Issues of Chickpea-Mung Bean Cropping System -- 7.3 Decision Support System for Agrotechnology Transfer -- 7.3.1 Chickpea -- 7.3.2 Mung Bean -- 7.4 Climate Change and Temperature Trend.
7.5 Climate Change Impact on Chickpea-Mung Bean Morphophysiological Responses -- 7.5.1 Chickpea -- 7.5.2 Mung Bean -- 7.6 Impact of Climate Change on Phenology -- 7.7 Impact of Climate Change on Current and Future Scenarios of Crop Production -- 7.7.1 Chickpea -- 7.7.2 Mung Bean -- 7.8 Adaption Strategies -- 7.9 Conclusion -- References -- 8: Soybean-Soybean System -- 8.1 Introduction -- 8.2 Issues of Soybean-Soybean Cropping System -- 8.3 Decision Support System for Agrotechnology Transfer -- 8.4 Climate Change and Temperature Trend -- 8.5 Climate Change Impact on Soybean Morphophysiological Responses -- 8.6 Impact of Climate Change on Soybean Phenology -- 8.7 Impact of Climate Change on Current and Future Scenarios of Soybean Production -- 8.8 Soybean Case Study in Pakistan -- 8.9 Adaption Strategies -- 8.10 Conclusion -- References -- 9: Sugarcane System -- 9.1 Introduction -- 9.2 Issues of Sugarcane Crop -- 9.3 Sugarcane Modeling -- 9.4 Climate Change Impact on Sugarcane Phenology -- 9.5 Impact of Climate Change on Phenology: A Case Study in Pakistan -- 9.6 CTWN Model Sensitivity for Sugarcane -- 9.7 Climate Change Impact on Sugarcane Production Systems -- 9.8 Climate Change's Impact on Sugarcane Morphophysiology -- 9.9 Climate Change's Impact on Sugarcane Quality -- 9.10 Climate Change's Impact of Pest

on Sugarcane -- 9.11 Adaptation Strategies -- 9.12 Conclusion -- References -- 10: Potato-Potato System -- 10.1 Introduction -- 10.2 Background -- 10.3 Potato Cropping System and Global Distribution -- 10.4 Decision Support System for Agrotechnology Transfer for Potato System -- 10.5 Impact of Climate Change on Potato Phenology -- 10.6 Potato-Potato System: A Case Study of Pakistan -- 10.7 Impact of Climate Change on Current and Future Scenarios of Potato Production Systems.
10.8 Climate Change Impact on Potato Production -- 10.9 Adaptation Strategies -- 10.10 Conclusion -- References -- 11: Sweet Corn-Bell Pepper System -- 11.1 Introduction -- 11.2 Cropping Systems and Geographical Distribution -- 11.3 Decision Support System for Agrotechnology Transfer -- 11.4 Climate Change -- 11.5 Impact of Climate Change on Crop Phenology -- 11.6 Effects of Climate Change on Crop Production Scenarios for the Present and the Future -- 11.7 Case Study -- 11.8 Adaptation Techniques -- 11.9 Conclusion -- References -- 12: C4 Cereal-Based Fodder Systems -- 12.1 Introduction -- 12.2 Issues of C4 Summer Cereal-Based Fodder Cropping Systems -- 12.3 Decision Support System for Agrotechnology Transfer -- 12.4 Climate Change and Temperature Trends -- 12.5 Climate Change Impact on Maize, Millet, and Sorghum Biomass Production on Current and Future Scenarios -- 12.6 Adaptation Strategies -- 12.7 Conclusion -- References -- 13: Alfalfa System -- 13.1 Introduction -- 13.2 Issues of Alfalfa Cropping System -- 13.3 Alfalfa Modeling -- 13.4 Modeling of the Dynamics of Seed Lot Germination -- 13.5 Impact of Climate Change on Alfalfa Phenology -- 13.6 Climate Change Impact on Alfalfa Production -- 13.7 Climate Change's Impact on Alfalfa Quality -- 13.8 Adaptation Strategies -- 13.9 Conclusion -- References -- 14: Groundnut-Canola System -- 14.1 Introduction -- 14.2 Issues of Groundnut-Canola Cropping System -- 14.3 Decision Support System for Agrotechnology Transfer -- 14.3.1 Groundnut -- 14.3.2 Canola -- 14.4 Climate Change and Temperature Trend -- 14.5 Climate Change Impact on Groundnut-Canola Morphophysiological Responses -- 14.5.1 Groundnut -- 14.5.2 Canola -- 14.6 Impact of Climate Change on Groundnut-Canola System Phenology -- 14.6.1 Groundnut -- 14.6.2 Canola -- 14.6.2.1 Case Study in Pakistan in Asia.
14.7 Impact of Climate Change on Current and Future Scenarios of Crop Production -- 14.7.1 Groundnut -- 14.7.2 Canola -- 14.8 Adaptation Strategies -- 14.9 Conclusion -- References -- 15: Guar-Wheat System -- 15.1 Introduction -- 15.2 Guar Phenology -- 15.3 Decision Support System for Agrotechnology Transfer -- 15.4 Application of CROPGRO Model for Simulating Guar Growth and Productivity -- 15.5 Integration of Guar in Dryland Wheat System -- 15.6 Conclusion -- References.
