

1. Record Nr.	UNINA9910865293903321
Autore	Paas Fred
Titolo	Recent Trends in Educational Technology and Administration : Proceedings of the 3rd International Conference on Educational Technology and Administration / / edited by Fred Paas, Srikanta Patnaik, Taosheng Wang
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2024
ISBN	9783031607776 3031607775
Edizione	[1st ed. 2024.]
Descrizione fisica	1 online resource (505 pages)
Collana	Learning and Analytics in Intelligent Systems, , 2662-3455 ; ; 38
Altri autori (Persone)	PatnaikSrikanta WangTaosheng
Disciplina	370
Soggetti	Education Science - Study and teaching Computational intelligence Expert systems (Computer science) Science Education Computational Intelligence Knowledge Based Systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intelligent Data Collection And Aesthetic Activities-From The Aesthetic Perspective Of Art Works -- Fuzzy Optimization Model of Teaching Evaluation of Oral English Classroom in Colleges and Universities -- Design of Interactive Teaching Platform for English Writing Based on Reinforcement Learning -- The Application and Data Analysis of Situational Teaching in English Teaching -- Construction of daily communicative spoken corpus of people with different educational levels combined with intelligent speech recognition -- Opacity research based on the discrete mathematics system of automatic machine.
Sommario/riassunto	This book introduces various techniques of educational technology, blending theory with real-world applications, making it an essential tool for a wide range of readers. Different innovative methods covered

in this book enhance its usefulness in education administration and management. The content of the book covers chapters both for the beginners and experts, serving as a key reference for educators and administrators. This book serves as a source of fresh ideas for researchers exploring the evolving aspects of educational technology and administration. This book's wide range of coverage highlights its importance in the education sector, offering new insights and practical solutions that cater to the needs of today's diverse learning settings. By bridging the gap between theory and practice, it facilitates a deeper understanding of the shifting paradigms in education, driven by technological progress and a shift towards more learner-centred models.
