Sommario/riassunto	This volume centers on leadership through the lenses of cross-cultural dynamics and Biblical principles. Each chapter examines a distinct instance from a New Testament text, offering diverse Biblical applications. The text places an emphasis on understanding cultural awareness and cultural sensitivity, offering insights on integrating Biblical values into leadership approaches. Addressing a void in demonstrating the alignment of cross-cultural leadership with Biblical principles, this work makes a valuable contribution to the realms of cross-cultural studies and organizational leadership.
