

1. Record Nr.	UNINA9910869183703321
Titolo	Advances in Energy Resources and Environmental Engineering // edited by Abdelfatah Abomohra, Razif Harun, Jia Wen
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2024
ISBN	3-031-42563-4
Edizione	[1st ed. 2024.]
Descrizione fisica	1 online resource (1733 pages)
Collana	Environmental Science and Engineering, , 1863-5539
Disciplina	333.79
Soggetti	Ecology Environmental engineering Civil engineering Sustainability Power resources Environmental economics Environmental Sciences Environmental Civil Engineering Natural Resource and Energy Economics Resource and Environmental Economics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Environmental Science -- Exploration of Resources and Environmental Protection -- Energy Economics and Management.
Sommario/riassunto	This book provides the recent advanced research results of environmental engineering and energy resources, covering the main multidisciplinary research on waste treatment and recycling, ecological environment protection, energy strategy management, etc. The exploitation and extensive utilization of energy and resources result in negative impacts on the environment. Therefore, the use of energy and resources efficiently and eco-friendly has become an urgent research direction in environmental engineering. This book aims to promote scientific information exchange between scholars from universities, research centers, and high-tech enterprises around the world, which is beneficial to researchers and practitioners in the field of environmental

engineering.
