Sommario/riassunto	The Architecture of Leadership is a simple but effective toolkit for leaders, whose main theme is ""preparation = performance."" Using the elements of architecture, they begin with a foundation of character and values, move to a floor representing a drive to achieve combined with the capacity to care, and continue with the framework of innate traits and acquired skills to the ceiling and roof of opportunity and performance, respectively. Supporting it all are the pillars of honesty, integrity, courage, respect, commitment, trust, ethics, and hard work.
