

1. Record Nr.	UNINA9910872189903321
Autore	Izah Sylvester Chibueze
Titolo	Herbal Medicine Phytochemistry : Applications and Trends
Pubbl/distr/stampa	Cham : , : Springer International Publishing AG, , 2024 ©2024
ISBN	9783031431999
Edizione	[1st ed.]
Descrizione fisica	1 online resource (2211 pages)
Collana	Reference Series in Phytochemistry Series
Altri autori (Persone)	OgwuMatthew Chidozie AkramMuhammad
Disciplina	572.21634
Soggetti	Herbal Medicine Phytotherapy Plants, Medicinal Medicine, Traditional Drug Discovery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Acknowledgments -- Contents -- About the Editors -- Contributors -- An Introduction to Herbal Medicine Phytochemistry: Applications and Trends -- Background -- Phytochemistry and Herbal Medicine -- Utilization Approach and Practices in Herbal Medicine -- Quality Assessment and Research Needs of Herbal Medicine -- Conclusion -- Part I: Introduction -- 1 Historical Perspectives and Overview of the Value of Herbal Medicine -- 1 Introduction -- 2 Historical Perspectives of Herbal Medicine -- 2.1 Ancient Babylonians -- 2.2 Ancient Hindustani Doctors -- 2.3 Chinese Medicine -- 2.4 Arab Herbalists -- 2.5 Aztec Medicine -- 2.6 Indigenous or Native American Societies -- 2.7 Greek-Roman-European Herbalism -- 2.8 Alkebu-Lan or African Herbalism -- 3 Utilization of Herbal Medicine -- 4 Herbal Medicine Applications and Techniques -- 5 Trends in Herbal Medicine -- 6 Research Needs in Herbal Medicine -- 7 Conclusion -- References -- Part II: Phytochemistry and Herbal Medicine -- 2 Plant Food for Human Health: Case Study of Indigenous Vegetables in Akwa Ibom State, Nigeria -- 1 Introduction -- 2 Akwa Ibom State, Southern Nigeria -- 3 Indigenous Vegetables Used as Food and Medicine in Akwa Ibom

-- 4 Botanical Description, Knowledge, and Practices Associated with the Vegetables Indigenous Used as Food and Medicine by Akwa ... --
4.1 *Gnetum africanum* -- 4.2 *Heinsia crinita* -- 4.3 *Talinum triangulare*
-- 4.4 *Telfairia occidentalis* -- 4.5 *Lasianthera africana* -- 4.6 *Vernonia amygdalina* -- 4.7 *Gongronema latifolium* -- 4.8 *Abelmoschus esculentus* -- 4.9 *Ocimum gratissimum* -- 4.10 *Piper guineense* -- 4.11 *Amaranthus hybridus* -- 4.12 *Justicia schimperi* -- 4.13 *Colocasia esculentum* -- 4.14 *Crassocephalum crepidioides* -- 4.15 *Ipomoea batatas* -- 4.16 *Cucumis sativus* -- 4.17 *Cucurbita maxima* -- 4.18 *Microdesmis puberula* -- 4.19 *Aframomum melegueta*.
4.20 *Allium sativum* -- 4.21 *Aloe vera* (*A. barbadensis*) -- 4.22 *Anthocleista djalensis* -- 4.23 *Acanthus montanus* -- 4.24 *Achyranthes aspera* -- 4.25 *Alternanthera bettzickiana* -- 4.26 *Cyathula prostrata* -- 4.27 *Allium cepa* -- 4.28 *Carica papaya* -- 4.29 *Carpolobia lutea* -- 4.30 *Lannea acida* -- 4.31 *Lannea nigritana* -- 4.32 *Anacardium occidentale* -- 4.33 *Mangifera indica* -- 4.34 *Uvaria chamae* -- 4.35 *Monodora myristica* -- 4.36 *Caladium bicolor* -- 4.37 *Tridax procumbens* -- 4.38 *Emilia sonchifolia* -- 4.39 *Crassocephalum crepidioides* -- 4.40 *Heliotropium indicum* -- 4.41 *Spathodea campanulata* -- 4.42 *Newbouldia laevis* -- 4.43 *Kigelia africana* -- 4.44 *Ananas comosus* -- 4.45 *Dacryodes klaineana* -- 4.46 *Allanblackia floribunda* -- 4.47 *Combretum micranthum* -- 4.48 *Terminalia ivorensis* -- 4.49 *Ipomoea quamoclit* -- 4.50 *Ipomoea pileata* -- 4.51 *Costus afer* -- 4.52 *Bryophyllum pinnatum* -- 4.53 *Citrullus colocynthis* -- 4.54 *Momordica charantia* -- 4.55 *Dioscorea dumetorum* -- 4.56 *Euphorbia hirta* -- 4.57 *Jatropha curcas* -- 4.58 *Manihot esculenta* -- 4.59 *Manniophyton fulvum* -- 4.60 *Mallotus oppositifolius* -- 4.61 *Azelia africana* -- 4.62 *Acacia ataxacantha* -- 4.63 *Azelia bella* -- 4.64 *Baphia nitida* -- 4.65 *Cajanus cajan* -- 4.66 *Cassia alata* -- 4.67 *Glycine max* -- 4.68 *Lonchocarpus cyanescens* -- 4.69 *Parkia biglobosa* -- 4.70 *Pentaclethra macrophylla* -- 4.71 *Pterocarpus erinaceus* -- 4.72 *Pterocarpus santalinoides* -- 4.73 *Tetrapleura tetraptera* -- 4.74 *Harungana madagascariensis* -- 4.75 *Irvingia gabonensis* -- 5 Conclusion -- References -- 3 Classification Methods and Diversity of Medicinal Plants -- 1 Introduction -- 1.1 Medicinal Plant Species and Their Therapeutic Value -- 2 Methods of Classifying Medicinal Plants -- 2.1 Some Medicinal Plants Based on Parts Used -- 2.2 Some Medicinal Plant Based on Habit -- 2.3 Some Medicinal Plant Based on Habitat.
2.4 Some Medicinal Plant Based on Therapeutic Values -- 2.5 Medicinal Plant Based on Ayurvedic Formulation -- 3 Diversity in Medicinal Plants -- 3.1 Medicinal Plant Diversity Based on Their Habitat -- 3.1.1 Hydrophytes -- 3.1.2 Hygrophytes -- 3.1.3 Halophytes -- 3.1.4 Mesophytes -- 3.1.5 Xerophytes -- 3.1.6 Epiphytic Plants -- 3.1.7 Parasitic Plants -- 3.2 Medicinal Plant Diversity Based on Habit -- 3.2.1 Herbaceous Plants -- 3.2.2 Shrubby Plants -- 3.2.3 Arborescent (Trees) -- 3.2.4 Culms -- 3.2.5 Flowering Vine -- 3.3 Medicinal Angiosperm Diversity Based on the Nature of Stem -- 3.3.1 Erect Stem -- 3.3.2 Creepers -- 3.3.3 Trailers -- 3.3.4 Climbers -- 3.4 Medicinal Plant Diversity Based on Size -- 3.5 Medicinal Plant Diversity Based on Life Span -- 3.5.1 Ephemerals -- 3.5.2 Annuals -- 3.5.3 Biennials (Biannuals) -- 3.5.4 Perennials -- 3.6 Medicinal Plant Diversity Based on Nutrition -- 3.6.1 Autophytes/Autotrophs -- 3.6.2 Heterotrophs -- 3.7 Diversity in Frequency of Occurrence and Relative Density of Medicinal Plants -- 3.8 Diversity in Use-Value Index of Medicinal Plants in Akwa Ibom State, Nigeria -- 3.9 Medicinal Plants Diversity Among Tree Canopies -- 3.10 Medicinal Plant Cover and Abundance Between the Various Forest Canopies -- 3.11 Types of Medicinal Plant Canopy

-- 3.11.1 Closed Canopy -- 3.11.2 Open Spaces -- 3.11.3 Partial Canopy -- 4 Conclusion -- References -- 4 Classification of Phytochemicals in Plants with Herbal Value -- 1 Introduction -- 2 Classification of Phytochemicals -- 2.1 Flavonoids -- 2.1.1 Isoflavone -- 2.1.2 Flavanone -- 2.1.3 Flavone -- 2.1.4 Flavanol -- 2.1.5 Flavonol -- 2.1.6 Flavanonol -- 2.1.7 Anthocyanidins -- 2.1.8 Chalcones -- 2.2 Alkaloids -- 2.3 Terpenoids -- 2.3.1 Monoterpenoids -- 2.3.2 Sesquiterpenes -- 2.3.3 Diterpenes -- 2.3.4 Triterpenes -- 2.3.5 Tetraterpenes -- 2.3.6 Polyterpenoids.

2.4 Phenolic Components -- 2.4.1 Hydroxybenzoic Acids -- 2.4.2 Hydroxycinnamic Acids -- 2.5 Phytosterols -- 3 Role of Secondary Metabolites in Diseases Treatment -- 3.1 Hepatic Disorders -- 3.2 Renal Disorders -- 3.3 Cardiac Disorders -- 3.4 Cancer Treatment -- 3.5 Antimicrobial Activity -- 3.6 Anti-Inflammatory Activity -- 3.7 Neurological Disorders -- 4 Artificial Phytochemicals Production -- 5 Recent Advances in Herbal Medicine -- 6 Conclusion -- References -- 5 *Cola accuminata*: Phytochemical Constituents, Nutritional Characteristics, Scientific Validated Pharmacological Properties, E... -- 1 Introduction -- 2 History and Cultural Significance of *Cola accuminata* -- 3 Nutritional Properties of *Cola accuminata* -- 3.1 Stimulant -- 3.2 Energy Source -- 3.3 Dietary Fibre -- 3.4 Minerals -- 3.5 Antioxidant -- 3.6 Vitamins -- 4 Phytochemical Constituents of *Cola accuminata* -- 4.1 Proximate Composition of *Cola accuminata* -- 4.1.1 Moisture Content -- 4.1.2 Protein Content -- 4.1.3 Fat Content -- 4.1.4 Ash Content -- 4.1.5 Total and Reducing Sugar Content -- 4.1.6 Carbohydrate and Energy Value -- 4.2 Antioxidants Properties -- 4.2.1 Free Radical Scavenging Activity -- 4.2.2 Hydrogen Peroxide Scavenging -- 4.2.3 Metal Chelating Capacity -- 4.2.4 Lipid Peroxidation Inhibition -- 4.2.5 DNA Protection -- 5 Traditional and Ethno-Medicinal Uses of *Cola accuminata* -- 5.1 Digestive Aid -- 5.2 Diuretic Properties -- 5.3 Aphrodisiac Effects -- 5.4 Antimicrobial Activity -- 5.5 Anti-inflammatory and Analgesic Characteristics -- 5.6 Respiratory Support -- 5.7 Mental Alertness and Cognitive Enhancement -- 5.8 Antidiabetic Effects -- 5.9 Wound Healing Properties -- 5.10 Anti-cancer Properties -- 6 Modern Scientific Research on Pharmacological Potentials of *Cola accuminata* -- 6.1 Antimicrobial Activity -- 6.2 Antioxidant and Anti-inflammatory Effects.

6.3 Antidiabetic Activity -- 6.4 Neuroprotective Effects -- 6.5 Anti-cancer Potential -- 6.6 Anti-Ulceric Properties -- 6.7 Wound Healing Properties -- 7 Some Herbal Formulations Involving *Cola accuminata* as Active Ingredients -- 7.1 Agbo Formulation -- 7.2 Ewuro-Ajekobale Formulation -- 7.3 Ciklavit Herbal Preparation -- 7.4 Agbo-Iba -- 7.5 Orogbo Formulation -- 7.6 Opa Eyin Formulation -- 7.7 Agbo-Jedi Formulation -- 7.8 Agbo-Atosi Formulation -- 7.9 Oroki Formulation -- 7.10 Osomo Formula -- 7.11 Epa-Ijebu Formulation -- 8 Safety Considerations and Side Effects of *Cola accuminata* -- 8.1 Caffeine Content -- 8.2 Allergic Reactions -- 8.3 Interactions with Medications -- 8.4 Gastrointestinal Discomfort -- 8.5 Pregnancy and Lactation -- 8.6 Blood Pressure and Heart Conditions -- 8.7 Liver and Kidney Condition -- 8.8 Children and Adolescents -- 9 Commercial Properties of *Cola accuminata* -- 9.1 Food and Beverage Industry -- 9.2 Pharmaceutical Industry -- 9.3 Cosmetics and Personal Care Products -- 9.4 Traditional and Cultural Practices -- 9.5 Flavour and Fragrance Industry -- 9.6 Herbal Supplements and Nutraceuticals -- 9.7 Traditional Medicine and Remedies -- 9.8 Agricultural and Horticultural Uses -- 9.9 Food and Confectionery Industry -- 9.10 Veterinary Medicine -- 10 Conclusion -- References -- 6 *Citrus aurantium*:

Phytochemistry, Therapeutic Potential, Safety Considerations, and Research Needs -- 1 Introduction -- 2 Overview of the Non-pharmacological Uses of Citrus aurantium -- 2.1 The Role of Citrus aurantium in Food Preservation -- 2.1.1 Antibacterial Properties of Citrus aurantium and Its Food Preservative Potential -- 2.1.2 Antifungal Properties of Citrus aurantium and Its Food Preservative Potential -- 2.1.3 Antioxidant Properties of Citrus aurantium and Its Food Preservative Potential -- 2.2 The Role of Citrus aurantium in Aromatherapy.
2.3 The Role of Citrus aurantium in Pulp and Paper Production.
