

1. Record Nr.	UNINA9910872419603321
Titolo	Visual Languages, '96 IEEE Symposium On
Pubbl/distr/stampa	[Place of publication not identified], : IEEE Computer Society Press, 1996
Descrizione fisica	1 online resource
Disciplina	005.118
Soggetti	Visual programming (Computer science) Visual programming (Computer science) - Computer programs
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	IEEE Symposium on Visual Languages -- The visual vision and human cognition -- Steering programs via time travel -- Integrating a constraint solver into a real-time animation environment -- Incorporating fisheyeing into a visual programming environment -- Visualizing program execution -- Teaching binary tree algorithms through visual programming -- A system for visualizing and animating program runtime histories -- A user interface for the visualization and manipulation of arrays -- Obtaining visual continuations with Visualcode.
