

1. Record Nr.	UNINA9910872643603321
Titolo	1996 IEEE 9th International Vacuum Microelectronics Conference Technical Digest
Pubbl/distr/stampa	[Place of publication not identified], : IEEE, 1996
Descrizione fisica	1 online resource (720 pages)
Disciplina	621.3815
Soggetti	Microelectronics Vacuum technology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	This conference focuses on the general examination of microelectronics for communications devices, high-speed signal processing, and portable equipment using vacuum conduction technology. Applications of interest are generally solid-state such as flat panel display fields and their cathode emissions requirements. RF and microwave requirements are examined for applicability of vacuum microelectronics.
