

1. Record Nr.	UNINA9910872662703321
Titolo	1996 IEEE Intelligent Vehicles Symposium
Pubbl/distr/stampa	[Place of publication not identified], : IEEE, 1996
Descrizione fisica	1 online resource (420 pages)
Disciplina	629.23
Soggetti	Automobiles - Automatic control Image processing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	This major IEEE symposium presents reports on the most recent progress in the complex field of intelligent vehicles. Various approaches to solving the need of local environment orientation and identification are discussed. Highlighted is the complexity of interacting with a local moving environment, traffic and other vehicle along with the challenge of anticipating their future states techniques such as neural networks.
