

1. Record Nr.	UNINA9910872719103321
Autore	Yu P. S
Titolo	Data Engineering, 11th International Conference (ICDE '95)
Pubbl/distr/stampa	[Place of publication not identified], : IEEE Computer Society Press, 1995
Descrizione fisica	1 online resource
Disciplina	005.7565
Soggetti	Database management Database management - Evaluation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	An international Masters in Software Engineering: experience and prospects -- An industrial perspective of software architecture -- OCAM: a collaborative system for multimedia applications -- Relational database compression using augmented vector quantization -- Buffer management for video database systems -- Two-level caching of composite object views of relational databases -- Generalized partial indexes -- CCAM: a connectivity-clustered access method for aggregate queries on transportation networks: a summary of results.
