

1. Record Nr.	UNINA9910872901003321
Titolo	1998 IEEE International Symposium on Electronics and the Environment
Pubbl/distr/stampa	[Place of publication not identified], : IEEE, 1998
Descrizione fisica	1 online resource (326 pages)
Disciplina	621.381
Soggetti	Electronic apparatus and appliances - Design and construction Environmental protection
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	Environmental topics pertinent to engineers, managers, and businesses engaged in electronic products are reviewed. Consideration of design of products to take into account the ecological impact of the stages of products design, test and development, manufacturing, use, and ultimate discard or recycling are presented. Financial risk and liability of ecological concerns are factored into the product life cycle discussions.
