

1. Record Nr.	UNINA9910874433403321
Titolo	IEEE Guide for the Application of Surge-Protective Components in Surge-Protective Devices and Equipment Ports . Part 2 Metal- Oxide Varistors (MOVs) / / Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York, USA : , : IEEE, , 2022
ISBN	1-5044-8477-0
Descrizione fisica	1 online resource (59 pages)
Disciplina	537.2
Soggetti	Electrostatics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Surge protective components (SPCs) used in power and telecom surge-protective devices (SPDs) and equipment ports are covered by the C62.42 guide series. Component construction, characteristics, ratings, and application examples are covered in this part on metal-oxide varistor (MOV) technology SPCs.
