Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The book collects the contributions of an interdisciplinary work carried out during a BIP (Blended Intensive Program) funded by the European community. The topic is related to the abandoned industrial sites that are protected for historical interest. Starting from a comparison between the different approaches based on the study of the best practices and the different methods and tools of analysis, some premises have been defined for the representation of the site and the development of transformation hypotheses for reusing of the ex Corradini in S. Giovanni. Stimulating the cultural debate, dealing with different cultural realities, defining replicable methodological paths are the main objectives of this work.
