

1. Record Nr.	UNINA9910876559703321
Titolo	Advances in chemical physics . Volume 112 // edited by I. Prigogine and Stuart A. Rice
Pubbl/distr/stampa	New York, : John Wiley & Sons, c2000
ISBN	1-282-68182-6 9786612681820 0-470-14171-9 0-470-14224-3
Descrizione fisica	1 online resource (458 p.)
Collana	Advances in chemical physics ; v. 112
Altri autori (Persone)	Prigogine (Ilya) RiceStuart Alan <1932->
Disciplina	539 541.305 541/08
Soggetti	Chemistry, Physical and theoretical Magnetic fluids
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Advances in CHEMICAL PHYSICS; CONTENTS; ON THE STATICS AND DYNAMICS OF MAGNETOANISOTROPIC NANOPARTICLES; RELAXATION TIMES FOR SINGLE-DOMAIN FERROMAGNETIC PARTICLES; ONE-DIMENSIONAL ISING MODEL FOR SPIN SYSTEMS OF FINITE SIZE; QUANTUM ELECTRODYNAMICS OF RESONANCE ENERGY TRANSFER; AUTHOR INDEX; SUBJECT INDEX
Sommario/riassunto	This prestigious series provides the chemical physics field with a forum for critical, authoritative evaluations of advances in every area of the discipline. Volume 112 continues to report on recent advances through significant, up-to-date chapters by internationally recognized researchers.
