

1. Record Nr.	UNINA9910876787503321
Titolo	Clinical pediatric endocrinology // edited by Charles G.D. Brook, Peter E. Clayton, Rosalind S. Brown ; foreword by Martin O. Savage
Pubbl/distr/stampa	Malden, Mass., : Blackwell Pub., 2005
ISBN	1-280-74826-5 9786610748266 0-470-76148-2 0-470-98711-1 1-4051-7166-9
Edizione	[5th ed.]
Descrizione fisica	1 online resource (618 p.)
Altri autori (Persone)	BrookC. G. D (Charles Groves Darville) ClaytonPeter E BrownRosalind S
Disciplina	618.92/4
Soggetti	Pediatric endocrinology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Clinical Pediatric Endocrinology; Contents; Contributors; Foreword; Preface to the fifth edition; Preface to the first edition; 1 Principles of hormone action; 2 Genetics,genomics,proteomics, and bioinformatics; 3 Measuring hormones,molecular and their clinical application; 4 Congenital disorders of the hypothalamic -pituitary axis; 5 Normal and disordered growth; 6 Genetic syndromes and dysmorphology; 7 Acquired abnormalities of the hypothalamic -pituitary axis leading to growth impairment; 8 Development of the reproductive systems; 9 Ambiguous genitalia; 10 Normal and abnormal puberty 11 Gynecology12 The thyroid and its disorders; 13 The parathyroid and disorders of calcium metabolism; 14 Disorders of bone metabolism; 15 The adrenal cortex and its disorders; 16 Polyglandular syndromes; 17 Disorders of water balance; 18 Endocrine programming and the fetal and early-life origins of adult disease; 19 Weight regulation and monogenic obesity; 20 Metabolic consequences of obesity and their management; 21 Diabetes mellitus; 22 Hypoglycemia; 23 Endocrine consequences of systemic disease:critical illness; 24 Consequences of

radiotherapy, chemotherapy, and bone marrow transplant
25 Tests and normal values in pediatric endocrinology Appendix; Index;
Colour Plate section

Sommario/riassunto

This new edition of the benchmark text on clinical pediatric endocrinology still remains at the forefront of world clinical opinion. Furthermore, the style, which has been the hallmark of the book for the last 20 years, has been maintained for this Fifth Edition. New features of this Fifth Edition include: Special new chapters cover the fetal origins of adult disease and the endocrine consequences and management of critical illness. Now opens with a basic science section summarizing the mechanisms of hormone action, genomics, proteomics and the application
