1.	Record Nr.	UNINA9910876814703321
	Titolo	Markov decision processes in artificial intelligence : MDPs, beyond MDPs and applications / / edited by Olivier Sigaud, Olivier Buffet
	Pubbl/distr/stampa	London, : ISTE Hoboken, N.J. : Wiley, 2010
	ISBN	1-118-62010-0 1-118-55742-5 1-299-31547-X 1-118-61987-0
	Descrizione fisica	1 online resource (457 pages)
	Altri autori (Persone)	SigaudOlivier BuffetOlivier
	Disciplina	006.301/509233
	Soggetti	Artificial intelligence - Mathematics Artificial intelligence - Statistical methods Markov processes Statistical decision
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	First published 2008 in France by Hermes Science/Lavoisier in two volumes entitled: Processus decisionnels de Markov en intelligence artificielle.
	Nota di bibliografia	Includes bibliographical references and index.
	Nota di contenuto	pt. 1. MDPs : models and methods -- pt. 2. Beyond MDPs -- pt. 3. Applications.
	Sommario/riassunto	Markov Decision Processes (MDPs) are a mathematical framework for modeling sequential decision problems under uncertainty as well as Reinforcement Learning problems. Written by experts in the field, this book provides a global view of current research using MDPs in Artificial Intelligence. It starts with an introductory presentation of the fundamental aspects of MDPs (planning in MDPs, Reinforcement Learning, Partially Observable MDPs, Markov games and the use of non-classical criteria). Then it presents more advanced research trends in the domain and gives some concrete examples using illustr
