

1. Record Nr.	UNINA9910876851803321
Autore	Wexler H
Titolo	Antarctic Research: The Matthew Fontaine Maury Memorial Symposium
Pubbl/distr/stampa	[Place of publication not identified], : American Geophysical Union, 1962
ISBN	1-118-66878-2
Descrizione fisica	1 online resource (x, 228 pages) : illustrations, maps
Collana	Geophysical monograph, 7, number 1036, number 7
Disciplina	507.2
Soggetti	Research - Antarctica Antarctica Congresses
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Glacial and subglacial geography of Antarctica - Charles R. Bentley -- The geology of Antarctica - Raymond J. Adie -- The geology of Cape Evans and Cape Royds, Ross Island, Antarctica - Samuel B. Treves -- Geology of Lake Vanda, Wright Valley, South Victoria Land, Antarctica - Robert L. Nichols -- Crustal structure in Antarctica - George P. Woollard -- Outlines of Southern Ocean geomorphology - Alexander V. Zhivago -- Bottom sediments of the Antarctic - A.P. Lisitzin -- Morphology and some interpretation of geomagnetic variations in Antarctica - Takesi Nagata -- The ionosphere over Antarctica - W.R. Piggott and A.H. Shapley -- Auroral research in Antarctic regions - Norman J. Oliver -- Mean westerly jet streams in the Southern Hemisphere - H.R. Phillpot -- Atmospheric advection and the Antarctic mass and heat budget - Morton J. Rubin -- On the dependence of the character of the boundary between Antarctic and sub-Antarctic pelagic zones on the meteorological conditions - N.M. Voronina -- On heat exchange of the Antarctic waters - V.G. Kort -- Studies on physical oceanography in the Ross Sea by the New Zealand Oceanographic Institute - D.M. Garner -- Preliminary studies and results of the oceanographic work in the Weddell Sea area (abstract only) - Ruben N. Paccagnini and Alberto O. Casellas -- Glaciological phenomenon in the Bellingshausen Sea during the 1959-60 Antarctic campaign (abstract only) - Alberto J. Valdez and Rolando Nawratil -- The amount of ice on planet earth - Edward C. Thiel -- Glaciology of Antarctica - P.A.

Shumsky -- The thermal diffusivity and thermal conductivity of glacial ice at Wilkes Station, Antarctica - Richard L. Cameron and Colin B. Bull -- The stratigraphic distribution of particulate matter in the firn at Byrd Station, Antarctica - Ernest W. Marshall -- The dynamics of ice shelves - James H. Zumberge and Charles Swithinbank -- New Zealand glaciology - Richard P. Goldthwait and Ian C. McKellar -- Argentine glaciology - Benito S. Colqui.
