Descrizione fisica	1 online resource (231 pages)
Collana	MAK-Collection for Occupational Health and Safety. Part III: Air Monitoring Methods (DFG)
Disciplina	363.739263
Soggetti	Hazardous substances - Analysis Indoor air pollution - Measurement
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Vol. 1 / edited by A. Kettrup and D. Henschler. c1990.
Sommario/riassunto	This is the sixth volume in an international series of analytical methods for the determination of toxicants in the air at the workplace. All methods are reliable, reproducible and meet the requirements for quality control. The analysis of the levels of hazardous substances in the air inhaled by workers in the chemical industry and similar working environments is necessary to monitor adherence to statutory concentration limits and to protect the workers from the adverse effects of such substances.
