

1. Record Nr.	UNINA9910876983403321
Titolo	Control processes in multicellular organisms : a Ciba Foundation Symposium // edited by G.E.W. Wolstenholme and Julie Knight
Pubbl/distr/stampa	London, : J. & A. Churchill, 1970
ISBN	1-280-76868-1 9786613679451 0-470-71972-9 0-470-71735-1
Descrizione fisica	1 online resource (454 p.)
Collana	Ciba Foundation symposium
Altri autori (Persone)	Wolstenholme G. E. W (Gordon Ethelbert Ward) Knight Julie
Disciplina	574.1/92
Soggetti	Biochemistry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Held at the India International Centre, New Delhi, 17th-21st March, 1969.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	CONTROL PROCESSES IN MULTICELLULAR ORGANISMS; Contents; Chairman's opening remarks; In vitro studies of the lac operon regulatory system; Discussion; Modulation of enzyme activities by metabolites; Discussion; The expression of genetic information: a study with hybrid animal cells; Discussion; The role of cyclic AMP in certain biological control systems; Discussion; Insulin and growth hormone control of protein biosynthesis; Discussion; Mechanism of action of growth hormone and oestrogens; Discussion; Hormonal control of metamorphosis; Discussion Intercellular control of intracellular metabolic activity Discussion; Recent studies on the feedback control of ACTH secretion, with particular reference to the role of transcortin in pituitary-thyroid-adrenocortical interactions; Discussion; The role of the thymus gland in the hormonal regulation of host resistance; Interaction between thymus cells and bone marrow cells in response to antigenic stimulation; Discussion; Anticipatory mechanisms of individuals; Discussion; Antibody structure: a molecular basis for specificity and control in the immune response; Discussion

Regulatory mechanisms of cellular proliferation in a protein-deficient organism; Discussion; Subcellular fractionation techniques in the study of chemical transmission in the central nervous system; Discussion; Regulation of visceral activities by the central nervous system; Discussion; Some general integrative aspects of brain function; Discussion; Chairman's closing remarks; Author Index; Subject Index
