|-------------------------|--|
| 1. Record Nr. | UNINA9910877047503321 |
| Titolo | Handbook of battery materials // Jurgen O. Besenhard, (ed.) |
| Pubbl/distr/stampa | Weinheim ; ; New York, : Wiley-VCH, c1999 |
| ISBN | 1-282-02531-7 9786612025310 3-527-61167-3 3-527-61166-5 |
| Descrizione fisica | 1 online resource (649 p.) |
| Altri autori (Persone) | BesenhardJurgen O |
| Disciplina | 621.31242 |
| Soggetti | Electric batteries Electric batteries - Materials Storage batteries |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references. |
| Nota di contenuto | Handbook of Battery Materials; Contents; List of Contributors |
| Sommario/riassunto | Batteries find their applications in an increasing range of every-day products: discmen, mobile phones and electric cars need very different battery types.This handbook gives a concise survey about the materials used in modern battery technology. The physico-chemical fundamentals are as well treated as are the environmental and recycling aspects. It will be a profound reference source for anyone working in the research and development of new battery systems, regardless if chemist, physicist or engineer. |
