1. Record Nr.   UNINA9910877136403321

   Autore   Ahmed Adeel

   Titolo   Deploying IPV6 in broadband access networks / / Adeel Ahmed, Salman
                       Asadullah

   Pubbl/distr/stampa Hoboken, NJ, : Wiley, c2009

   ISBN   1-118-21069-7
                       0-470-50844-2
                       1-282-31689-3
                       9786612316890
                       0-470-50843-4

   Edizione   [1st edition]

   Descrizione fisica 1 online resource (xviii, 213 p.) : ill

   Altri autori (Persone) AsadullahSalman

   Disciplina   621.38212

   Soggetti   TCP/IP (Computer network protocol)
                       Broadband communication systems

   Lingua di pubblicazione Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Note generali   Formerly CIP.

   Nota di bibliografia Includes bibliographical references and index.

   Nota di contenuto   IPv6 drivers in broadband networks -- IPv6 overview -- Deploying IPv6
                       in cable networks -- IPv6 deployment in DSL, ETTH, and wireless
                       networks -- Configuring and troubleshooting IPv6 on gateway routers
                       and hosts -- Configuring and troubleshooting IPv6 on edge routers --
                       Configuring and troubleshooting IPv6 on provisioning servers --
                       Appendix A : IPv6 case study -- Appendix B : DHCPv6 message types
                       and option codes.

   Sommario/riassunto Focusing on practical issues in deploying IPv6 in broadband networks,
                       this title provides in-depth configurations of different network
                       elements while covering debugging and troubleshooting techniques for
                       IPv6-related problems.
