

1. Record Nr.	UNINA9910877154203321
Titolo	Prevention of fetal alcohol spectrum disorder FASD : who is responsible? // edited by Sterling Clarren, Amy Salmon, and Egon Jonsson
Pubbl/distr/stampa	Weinheim, Germany, : Wiley-Blackwell, c2011
ISBN	3-527-63549-1 3-527-63548-3 1-283-28327-1 9786613283276 3-527-63550-5
Descrizione fisica	1 online resource (386 p.)
Collana	Health care and disease management, , 1864-9947
Altri autori (Persone)	ClarrenSterling SalmonAmy JonssonEgon
Disciplina	618.3268
Soggetti	Fetal alcohol syndrome - Prevention
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Prevention of Fetal Alcohol Spectrum Disorder FASD: Who is responsible?; Contents; Preface; List of Contributors; 1: Introduction; 1.1 The Content of This Book; 1.2 What is FASD ?; 1.3 How Common is FASD?; 1.4 What is the Economic Burden of FASD?; 1.4.1 Annual Cost Per Person with FASD; 1.4.2 Comparing Costs; 1.4.3 Cost of Prevention versus Cost of Inaction; 1.5 Approaches to FASD Prevention; 1.5.1 Universal Prevention; 1.5.2 Screening for Prenatal Alcohol Exposure in Obstetric Settings; 1.5.2.1 Meconium Testing; 1.5.2.2 Maternal Self-Reporting; 1.5.3 Selective Prevention 1.5.4 Indicated Prevention1.6 FASD Prevention in A boriginal Communities; 1.7 Main obstacles to Preventing FASD; 1.8 Challenges in Measuring Effectiveness of FASD Prevention Initiatives; 1.9 Who is Responsible for the Prevention of FASD?; References; 2: An Overview of Systematic Reviews on the Prevention, Diagnosis, and Treatment of Fetal Alcohol Spectrum Disorder; 2.1 Introduction; 2.2 Objective and Scope; 2.3 Methodological Approach; 2.3.1 Elements of Assessment;

2.4 Results; 2.4.1 Search Results; 2.4.1.1 Characteristics of Systematic Reviews Included in the Overview
2.4.2 Systematic Reviews on Prevention of FASD and Prenatal Alcohol Use
2.4.2.1 General Characteristics; 2.4.2.2 Methodological Characteristics of Systematic Reviews on Prevention of FASD and Prenatal Alcohol Use; 2.4.3 Methodological Quality of Systematic Reviews on Prevention of FASD and Prenatal Alcohol Use; 2.4.3.1 Characteristics of the Evidence Presented in the Systematic Reviews on Prevention Approaches to FASD and Prenatal Alcohol Use; 2.4.3.2 Qualitative Synthesis of the Evidence on the Effectiveness of Prevention Approaches to FASD and Prenatal Alcohol Use
2.4.3.3 Highlights of the Overall Results
2.4.4 Systematic Reviews on the Diagnosis of FASD; 2.4.4.1 General Characteristics; 2.4.4.2 Methodological Characteristics of the Systematic Review on Diagnosis of FASD; 2.4.4.3 Methodological Quality of Systematic Reviews on Diagnosis of FASD; 2.4.4.4 Characteristics of the Evidence Presented in the Systematic Review on the Effectiveness of Diagnostic Approaches to FASD; 2.4.4.5 Qualitative Synthesis of the Evidence on the Effectiveness of Diagnostic Approaches to FASD; 2.4.4.6 Highlights of the Overall Results
2.4.5 Systematic Reviews on the Treatment of FASD
2.4.5.1 General Characteristics; 2.4.5.2 Methodological Characteristics of Systematic Reviews on Therapeutic Approaches to FASD; 2.4.5.3 Methodological Quality of Systematic Reviews on Therapeutic Approaches to FASD; 2.4.5.4 Characteristics of the Evidence Presented in the Systematic Reviews on Therapeutic Approaches to FASD; 2.4.5.5 Qualitative Synthesis of the Evidence on the Effectiveness of Therapeutic Approaches to FASD; 2.4.5.6 Highlights of the Overall Results; 2.5 Discussion; 2.5.1 FASD Prevention; 2.5.2 FASD Diagnosis
2.5.3 FASD Treatment

Sommario/riassunto

Exposing a developing embryo or fetus to alcohol can produce life long brain damage with neurological, cognitive and behavioural consequences. The implications of fetal alcohol spectrum disorder for the affected individual and the family are devastating. The social and economic burden to society is enormous with formidable expenditures in health care, mental health care, education, social services and possibly correctional services. Prevention has been a goal since the condition was medically described and defined forty years ago, but has remained elusive but feasible. This book reviews the ev
