

1. Record Nr.	UNINA9910877277603321
Titolo	The human adrenal cortex // editors for the Ciba Foundation, G.E.W. Wolstenholme and Margaret P. Cameron ; assisted by Joan Etherington
Pubbl/distr/stampa	London, : J. & A. Churchill, 1955
ISBN	0-470-71521-9 0-470-71490-5
Descrizione fisica	1 online resource (417 p.)
Collana	Ciba Foundation colloquia on endocrinology ; ; v. 8
Altri autori (Persone)	WolstenholmeG. E. W (Gordon Ethelbert Ward) CameronMargaret P EtheringtonJoan
Disciplina	616.4/027 616.4027
Soggetti	Adrenal cortex
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Contains part II only.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	CIBA FOUNDATION COLLOQUIA ON ENDOCRINOLOGY; CONTENTS; Chairman's opening remarks; Dynamics of adrenal function in man; Discussion; Variability of adrenocortical response to ACTH in different persons, and the influence of variations in administration of ACTH preparations on the level of 17-hydroxycorticosteroids in the blood; Discussion; Studies of the inter-relationship between the adrenal cortex and ascorbic acid metabolism; Discussion; Studies on the sodium-retaining effect of adrenal cortical steroids; Clinical and metabolic effects of aldosterone; Discussion The Na and K concentration in mixed saliva: influence of secretion rate, stimulation, method of collection, age, sex, time of day and adrenocortical activityDiscussion; An attempt to correlate the histological changes in the anterior hypophysis and adrenal glands in various diseases in man; Discussion; Metabolic effects of adrenalectomy in man; Discussion; Therapeutic results of hypophysectomy in metastatic carcinoma of the breast and in severe diabetes mellitus; adrenocortical function after hypophysectomy; Discussion Virilizing adrenal hyperplasia: its treatment with cortisone and the

nature of the steroid abnormalitiesDiscussion; Cushing's syndrome;
Cushing's syndrome; Discussion; The reciprocal relationship between
the thyroid and adrenocortical responses to stress; The possible
functional significance of the pituitary-portal vessels; Discussion;
Psychological responses to the administration of ACTH and cortisone;
Discussion; Physiological response of the adrenal to psychological
influences as indicated by changes in the 17-hydroxycorticosteroid
excretion pattern; Discussion
Adrenocortical function of combat infantrymen in KoreaDiscussion;
General discussion; Chairman's closing remarks
