

1. Record Nr.	UNINA9910877375103321
Titolo	Atlas of gastroenterology // edited by Tadataka Yamada ; associate editors, David H. Alpers ... [et al.]
Pubbl/distr/stampa	Oxford ; ; Hoboken, NJ, : Wiley-Blackwell, 2009
ISBN	1-282-68283-0 9786612682834 1-4443-0341-4 1-4443-0342-2
Edizione	[4th ed.]
Descrizione fisica	1 online resource (1208 p.)
Altri autori (Persone)	YamadaTadataka AlpersDavid H
Disciplina	616.3/300222
Soggetti	Gastroenterology Gastrointestinal system - Diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Contributors; Preface; PART 1: Principles of clinical gastroenterology; 1: Approach to the patient with gross gastrointestinal bleeding; 2: Approach to the patient with occult gastrointestinal bleeding; 3: Approach to the patient with acute abdomen; 4: Approach to the patient with ileus and obstruction; 5: Approach to the patient with diarrhea; 6: Approach to the patient with suspected acute infectious diarrhea; 7: Approach to the patient with constipation; 8: Approach to the patient with abnormal liver chemistries; 9: Approach to the patient with jaundice 10: Approach to the patient with ascites and its complications11: Approach to the patient with acute liver failure; 12: Approach to the patient with chronic viral hepatitis B or C; 13: Approach to the patient with a liver mass; PART 2: Gastrointestinal diseases; A ESOPHAGUS; 14: Esophagus: anatomy and developmental and structural anomalies; 15: Motility disorders of the esophagus; 16: Gastroesophageal reflux disease; 17: Esophageal infections and disorders associated with acquired immunodeficiency syndrome; 18: Esophageal neoplasms 19: Miscellaneous diseases of the esophagus: foreign bodies, physical

injury, systemic and dermatological diseases  
B STOMACH; 20: Stomach and duodenum: anatomy and structural anomalies; 21: Disorders of gastric emptying; 22: Peptic ulcer disease; 23: Gastritis and gastropathy; 24: Tumors of the stomach; 25: Surgery for peptic ulcer disease and postgastrectomy syndromes; 26: Miscellaneous diseases of the stomach; C SMALL INTESTINE; 27: Small intestine: anatomy and structural anomalies; 28: Dysmotility of the small intestine and colon  
29: Bacterial, viral, and toxic causes of diarrhea, gastroenteritis, and anorectal infections  
30: Chronic infections of the small intestine; 31: Celiac disease; 32: Disorders of epithelial transport in the small intestine; 33: Short bowel syndrome; 34: Tumors of the small intestine; 35: Miscellaneous diseases of the small intestine; D COLON; 36: Colon: anatomy and structural anomalies; 37: Inflammatory bowel disease; 38: Miscellaneous inflammatory and structural disorders of the colon; 39: Diverticular disease of the colon; 40: Neoplastic and nonneoplastic polyps of the colon and rectum  
41: Polyposis syndromes  
42: Malignant tumors of the colon; 43: Anorectal diseases; E PANCREAS; 44: Pancreas: anatomy and structural anomalies; 45: Acute pancreatitis; 46: Chronic pancreatitis; 47: Nonendocrine tumors of the pancreas; 48: Endocrine neoplasms of the pancreas; 49: Hereditary diseases of the pancreas; F GALLBLADDER AND BILIARY TRACT; 50: Gallbladder and biliary tract: anatomy and structural anomalies; 51: Gallstones; 52: Primary sclerosing cholangitis and other cholangiopathies; 53: Cystic diseases of the liver and biliary tract; 54: Tumors of the biliary tract; G LIVER  
55: Liver: anatomy, microscopic structure, and cell types

#### Sommario/riassunto

Accurate, high-quality images are especially vital for gastrointestinal therapy. The Atlas of Gastroenterology is a gold-standard tool that provides specialists with an outstanding array of images covering all facets of the field. With endoscopic ultrasonographs, computed tomography scans, magnetic resonance images, radionuclide images, and angiograms demonstrating every clinical condition from liver abscess, to endocrine neoplasms of the pancreas, to motility disorders of the esophagus, this atlas is simply a must-own resource for all gastroenterologists. Showing the
