

1. Record Nr.	UNINA9910877389003321
Titolo	Practical hematopoietic stem cell transplantation // edited by Andrew Cant, Angela Galloway and Graham Jackson
Pubbl/distr/stampa	Malden, Mass. ; ; Oxford, : Blackwell, 2007
ISBN	1-280-74855-9 9786610748556 0-470-76326-4 0-470-98876-2 1-4051-7314-9
Descrizione fisica	1 online resource (221 p.)
Altri autori (Persone)	CantAndrew J GallowayAngela JacksonGraham
Disciplina	616.02774
Soggetti	Stem cells - Transplantation Neural stem cells
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Practical Hematopoietic Stem Cell Transplantation; Contents; List of contributors; Preface; Acknowledgments; List of abbreviations; 1 Why hematopoietic stem cell transplantation and for whom?; 2 Pre-transplant assessment; 3 The transplant; 4 Care of the transplant patient; 5 Prevention of infection during hematopoietic stem cell transplantation; 6 Bacterial, fungal, and parasitic infections in the transplant patient; 7 Virus infections in the HSCT patient; 8 Management of febrile neutropenia and system-specific infections 9 The role of intensive care in the management of hematopoietic stem cell patients10 Graft-vs.-host disease and post-transplant lymphoproliferative disease; 11 Gastrointestinal, respiratory and renal/ urogenital complications of HSCT; 12 Follow up in the first year after hematopoietic stem cell transplantation; 13 Immune recovery following hematopoietic stem cell transplantation and vaccination; 14 Prevention of infection following discharge after hematopoietic stem cell transplant; 15 Social and psychological aspects of care; 16 Long-term

follow up of transplant recipients

17 Hematopoietic stem cell transplantationIndex

Sommario/riassunto

Practical Hematopoietic Stem Cell Transplantation is the only comprehensive yet practical guide to the total care of the transplant patient. It provides a ready source of reference to help health care professionals involved in the management of patients requiring bone marrow and stem cell transplantations - covering many of the infections and complications that may arise. An essential, practical manual for all those working in the field of bone marrow and stem cell transplantationA balanced practical text aimed at the whole multi-disciplinary team <l
